Kirschenbaum, 2009-10-19 The siege of Leningrad constituted one of the most dramatic episodes of World War II one that individuals and the state began to commemorate almost immediately Official representations of heroic Leningrad omitted and distorted a great deal Nonetheless survivors struggling to cope with painful memories often internalized even if they did not completely accept the state's myths and they often found their own uses for the state's monuments Tracing the overlap and interplay of individual memories and fifty years of Soviet mythmaking this book contributes to understandings of both the power of Soviet identities and the delegitimizing potential of the Soviet Union's chief legitimizing myths Because besieged Leningrad blurred the boundaries between the largely male battlefield and the predominantly female home front it offers a unique vantage point for a study of the gendered dimensions of the war experience urban space individual memory and public commemoration
