Assessment Reform in Science Benny B.H.W Yung,2006-02-03 Fairness and Fear I was startled at the subtitle of the book when I first heard it Our series has some imaginative titles but none so evocative as this one But fear and fairness capture much of teacher thinking about assessment Indeed teachers struggle to be fair with students certainly concerned and often fearful of failures to be fair and repercussions that teachers can face as a result Then there is the fearful enterprise of imposed assessment regimes that many teachers face Dr Yung s book allows us to hear from the teachers on these concerns this is no top down policy statement His account is readable and highly instructive and I hope that copies will find their way

to the desks of many school administrators and policy personnel We are indeed pleased to release this volume William W
Cobern Book Series Editor 2000 2005 Foreword by Peter Fensham Two things are very clear to me about formal educational
systems What is assessed in these systems determines what teachers and students recognize as knowledge of worth Teachers
in general are conscientious in doing their best to ensure that their students will learn this knowledge of worth well Science
has now been widely acknowledged to be a core or key subject in the overall curriculum of schooling at all levels **El-Hi**
