Okurounmu, 2010-04-06 Leadership Failure and Nigeria s Fading Hopes is a heart rending lamentation by a patriotic Nigerian elder statesman Femi Okurounmu on how his country through unbridled corruption and the selfishness of successive leaders has dashed the hopes of not just Nigerians but the entire black race and reinforced the prejudices of racists who raise doubts concerning the intellectual capacity of black people The book consists of excerpts from a critical but constructive weekly column Patriotic Punches which the author wrote between 2004 and 2009 in the Nigerian Tribune newspaper It chronicles incidents of corruption in government laments the corruption of the entire society and all its institutions and decries the enthronement of money as the national deity such that its acquisition becomes the surest route to national recognition no matter how it is acquired It bemoans the fact that this conscienceless pursuit of money has eroded all of society s values fostered a culture of corruption and criminality and led to the hijack of governance by a wealthy cabal among them many criminals who have provided a climate of impunity for the most horrendous levels of treasury looting by public officials necessitating repeated rigging of elections to install protective successor leaders The author is particularly distressed that the traditional watchdogs of public morality and probity the judiciary the media religious leaders and institutions and traditional rulers have all become mortally infected by the corruption It calls on the citizenry to take their future into their own hands by shaking off their political lethargy and docility abandoning their excessive and unreasonable fear of death and mobilizing to confront bad governance and to ensure the emergence of a government that will fulfil the nation s early promise and give some credibility to the black man s claim to equality with other races of mankind **Attic**

World Sunshine, 2009-08 **Daily Graphic** Ransford Tetteh, 2014-04-12 *Human Rights in Nigeria's External Relations in the Age of General Muhammadu Buhari and His Successors* Philip C. Aka, 2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right

policy referred to alternately in the work as principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by General Muhammadu Buhari's departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Buhari's departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark of remote control dating back to the first military intervention in the country in January 1966 These momentous events within Nigeria coincide with equally epoch making developments in the UK Nigeria's former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria's external relations with ramifications for the application of human rights in those relations Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country's resources more wisely

Governance and Economic Growth in Nigeria Saidat Ilo, 2023-10-24 Governance and Economic Growth in Nigeria The Role of China and the U S between 2001 2011 examines why Nigeria experienced steady economic growth in GDP between 2001 2011 Saidat Ilo argues that improved governance as well as the perceived competition between China and the United States has impacted this growth She analyzes this perceived rivalry and their policies closely This book not only contributes to development theories by focusing and analyzing governance but it also goes a step further by filling a gap of contending theories which fail to consider the role governance plays in economic growth and progress particularly in the developing world Through in depth research Saidat Ilo discovers how China and the United States foreign policies influence decisions on foreign aid and trade in Nigeria She shows that there is a direct correlation between good governance and economic growth in Nigeria and provides policy recommendations based on this research

Human Rights in Nigeria's External Relations Philip Aka, 2016-12-20 This book is a broad ranging argument for thorough reforms at home and abroad in Nigeria as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Because of its enormous material and human endowments Nigeria is dubbed the Giant of Africa It is a moniker many of its leaders take seriously Yet Nigeria is a state rife with instability some of it periodically erupting into violence Given still ongoing national security challenges in the land that notoriously includes a bloody religion oriented terrorism the Fourth Republic since 1999 the longest period of continuous democratic rule since independence key to the timeline of this book has not been insulated from the spell of instability The main argument of this work is that internationally agreed upon ethical standards embedded in human rights can save Nigeria This book is a methodologically and theoretically grounded seminal discourse on Nigerian foreign relations that spells out the

human rights or lack thereof in those relations including underlying and impinging domestic forces This work is set around six issues of application embedded in a temple of Nigeria s human rights foreign policy comprising two steps and four pillars reconstructed national interest increased human rights at home redesigned peacekeeping reshaped foreign policy machinery increased bilateralism in foreign relations and the use of ECOWAS as human rights tool Although focused on the period since independence for proper understanding of events from the past that shape the current patterns of politics in the land this book also embodies a historical background chapter that overviews the pre colonial and colonial eras **The Business**

essays by professors Bartholomae Pullum and Ro who demonstrate not only their mastery in their respective subjects but also their ability to tailor their contents to multifarious audiences The next two sections represent the main body of the book with nearly forty contributions on both literature and cultural studies Part II and language and linguistics Part III These short academic pieces are a representative showcase of the research being done lately in the different areas of expertise The last section of the volume gathers together the results of four research projects dealing with such engaging topics as postcolonial crime fiction or forgotten texts by Anglo writers about the Spanish Civil War It is hard to think of any potential reader schooled in English Studies who will not find something suitable to their interests and tastes in this volume

Photography and American Coloniality Raoul J. Granqvist, 2017-04-01 This book is the first to question both why and how the colonialist mythologies represented by the work of photographer Eliot Elisofon persist It documents and discusses a heterogeneous practice of American coloniality of power as it explores Elisofon's career as war photographer correspondent and staff photographer for LIFE filmmaker author artist and collector of primitive art and sculpture It focuses on three areas Elisofon's narcissism voyeurism and sexism his involvement in the homogenizing of Western social orders and colonial legacies and his enthused mission of sending home a mass of still life photographs annexed African artifacts and assumed vintage knowledge The book does not challenge his artistic merit or his fascinating personality what it does question is his production and imagining of difference As the text travels from World War II to colonialism postcolonialism and the Cold War from Casablanca to Leopoldville Kinshasa it proves to be a necessarily strenuous and provocative trip

International Law and Civil Wars Eliav Liebllich, 2013-03-05 This book examines the international law of forcible intervention in civil wars in particular the role of party consent in affecting the legality of such intervention In modern international law it is a near consensus that no state can use force against another the main exceptions being self defence and actions mandated by a UN Security Council resolution However one more potential exception exists forcible intervention undertaken upon the invitation or consent of a government seeking assistance in confronting armed opposition groups within its territory Although the latter exception is of increasing importance the numerous questions it raises have received scant attention in the current body of literature This volume fills this gap by analyzing the consent exception in a wide context and attempting to delineate its limits including cases in which government consent power is not only negated but might be transferred to opposition groups The book also discusses the concept of consensual intervention in contemporary international law in juxtaposition to traditional legal doctrines It traces the development of law in this context by drawing from historical examples such as the Spanish Civil War as well as recent cases such those of the Democratic Republic of the Congo Somalia Libya and Syria This book will be of much interest to students of international law civil wars the Responsibility to Protect war and conflict studies and IR in general

Nigeria's Fourth Republic, 1999-2021 Michael Nwankpa, 2022-11-18 This book reflects on Nigeria's fourth republic the country's longest democratic period since it gained independence from Great Britain It argues that although

constitutional or political democracy has lasted for over two decades in Nigeria and seen three successful democratic changes of power Nigeria s democracy remains largely militarised During Nigeria s fourth republic political and socio economic affairs have been increasingly dominated by a pervasive military presence and ideology which has seen a redistribution of resources and government funds away from social programmes into an increase in security budgets weapons proliferation and internal military interventions and occupations This institutionalisation of violence has turned the country into a national security state where the rule of force and violence rather than dialogue and compassion reflect everyday reality Whilst acknowledging the history of militarisation during colonial and military rule this book makes a compelling argument for considering the distinct character of the Nigerian nation state s path to militarisation over the last 20 years of experimentation with democracy This book s fresh insights into the fourth republic s path to militarisation will be of interest to researchers of African politics security and development
