Reforming Chile Patrick Barr-Melej, 2002-11-25 Highlighting the crucial yet largely overlooked role played by society's middle layers in the historical development of Latin America Patrick Barr Melej provides the first comprehensive analysis of the rise of Chile's middle class reform movement and its profound impact on that country's cultural and political landscapes He shows how a diverse collection of middle class intellectuals writers politicians educators and bureaucrats forged a progressive nationalism and advanced an ambitious cultural political project between the 1890s and 1940s Together reformers challenged the power of elite groups and sought to quell working class revolutionary activism as they endeavored to democratize culture and fortify liberal democracy Using sources that range from archival documents and newspapers to short stories novels and school textbooks Barr Melej examines the reform movement's cultural ideas and their political applications especially as they were articulated in the areas of literature and public education In the process he provides a new framework for understanding Chile's cultural and political evolution as well as the complicated place of the middle class in a society experiencing the swift changes inherent in capitalist modernization

*A Second Spanish Reader* Stanley Appelbaum, 2012-07-12 Geared toward advanced beginners these highlights from poetry plays and stories by noted Spanish language writers include works by

Gabriela Mistral Pedro Calderón de la Barca and Lope de Vega **Hispania**, 1927 *Genre Analysis and Corpus Design*

Ulrike Henny-Krahmer, 2024-01-22 This work in the field of digital literary stylistics and computational literary studies is concerned with theoretical concerns of literary genre with the design of a corpus of nineteenth century Spanish American novels and with its empirical analysis in terms of subgenres of the novel The digital text corpus consists of 256 Argentine Cuban and Mexican novels from the period between 1830 and 1910 It has been created with the goal to analyze thematic subgenres and literary currents that were represented in numerous novels in the nineteenth century by means of computational text categorization methods To categorize the texts statistical classification and a family resemblance analysis relying on network analysis are used with the aim to examine how the subgenres which are understood as communicative conventional phenomena can be captured on the stylistic textual level of the novels that participate in them **Chile: The Making of a Republic, 1830-1865** Simon Collier, 2003-06-16 Chile enjoyed unique prestige among the Spanish American republics of the nineteenth century for its stable and increasingly liberal political tradition How did this unusual story unfold The tradition was forged in serious and occasionally violent conflicts between the dominant Conservative Party which governed in an often authoritarian manner from 1830 to 1858 and the growing forces of political Liberalism A major political realignment in 1857 paved the way for comprehensive liberalization This book examines the formative period of the republic's history and combines an analysis of the ideas and assumptions of the Chilean political class with a narrative of the political process from the consolidation of the Conservative regime in the 1830s to the beginnings of liberalization in the early 1860s The book is based on a comprehensive survey of the writings and speeches of politicians and the often rumbustious Chilean press of the period *The Reader and the Text* Diana Sorensen Goodrich, 1986-01-01 Interpretative strategies for Latin American literatures *The Inter-American Human Rights System* Par Engstrom, Courtney Hillebrecht, 2020-05-21 At the time of the adoption of the American Declaration on the Rights and Duties of Man in 1948 there was little indication that the Declaration would ultimately yield a highly institutionalized system comprised of a quasi-judicial Inter American Commission and an authoritative Inter American Court of Human Rights Today however the Inter American Human Rights System IAHR has emerged as a central actor in the global human rights regime This comprehensive volume explores the institutional changes and transformations that the IAHR has undergone since its creation offering contributions and insights from a variety of disciplines including history law and political science The book shows how institutional change has affected and been affected by the System's normative leanings rules of procedure and institutional design as well as by the position of the IAHR within the broader landscape of the Americas The authors examine institutional change from a variety of angles including the process of change in historical context normative and legal developments and the dynamic relationship between the IAHR and other regional and international human rights institutions This book was originally published as a special issue of The International Journal of Human Rights **Mapping**

*National Courts and the International Rule of Law* André Nollkaemper, 2012-10-11 This book explores the way domestic courts contribute to the maintenance of the international rule of law by providing judicial control over the exercises of public powers that may conflict with international law The main focus of the book will be on judicial control of exercise of public powers by states Key cases that will be reviewed in this book and that will provide empirical material for the main propositions include Hamdan in which the US Supreme Court reviewed detention by the United States of suspected terrorists against the 1949 Geneva Conventions Adalah in which the Supreme Court of Israel held that the use of local residents by Israeli soldiers in arresting a wanted terrorist is unlawful under international law and the Narmada case in which the Indian Supreme Court reviewed the legality of displacement of people in connection with the building of a dam in the river Narmada under the ILO Indigenous and Tribal Populations Convention 1957 nr 107 This book explores what it is that international law requires expects or aspires that domestic courts do Against this backdrop it maps patterns of domestic practice in the actual or possible application of international law and determines what such patterns mean for the protection of the international rule of law
