Metrophage A Romance Of The Future:

Metrophage Richard Kadrey, 1988 *Metrophage* Richard Kadrey, 1988 When a strange plague turns Los Angeles into a death ridden city and the alien Alpha Rats are blamed street wise drug dealer Jonny is forced to find a cure even if it means leaving Earth *Storming the Reality Studio* Larry McCaffery, 1991 The term cyberpunk entered the literary landscape in 1984 to describe William Gibson's pathbreaking novel *Neuromancer* Cyberpunks are now among the shock troops of postmodernism Larry McCaffery argues in *Storming the Reality Studio* marshalling the resources of a fragmentary culture to create a startling new form Artificial intelligence genetic engineering multinational machinations frenetic bursts of prose collisions of style celebrations of texture although emerging largely from science fiction these features of cyberpunk writing are as this volume makes clear integrally related to the aims and innovations of the literary avant garde By bringing together original fiction by well known contemporary writers William Burroughs Thomas Pynchon Don DeLillo Kathy Acker J G Ballard Samuel R Delany critical commentary by some of the major theorists of postmodern art and culture Jacques Derrida Fredric Jameson Timothy Leary Jean Fran ois Lyotard and work by major practitioners of cyberpunk William Gibson Rudy Rucker John Shirley Pat Cadigan Bruce Sterling *Storming the Reality Studio* reveals a fascinating ongoing dialog in contemporary culture What emerges most strikingly from the colloquy is a shared preoccupation with the force of technology in shaping modern life It is precisely this concern according to McCaffery that has put science fiction typically the province of technological art at the forefront of creative explorations of our unique age A rich opportunity for reading across genres this anthology offers a new perspective on the evolution of postmodern culture and ultimately shows how deeply technological developments have influenced our vision and our art Selected Fiction contributors Kathy Acker J G Ballard William S Burroughs Pat Cadigan Samuel R Delany Don DeLillo William Gibson Harold Jaffe Richard Kadrey Marc Laidlaw Mark Leyner Joseph McElroy Misha Ted Mooney Thomas Pynchon Rudy Rucker Lucius Shepard Lewis Shiner John Shirley Bruce Sterling William Vollman Selected Non Fiction contributors Jean Baudrillard Jacques Derrida Joan Gordon Veronica Hollinger Fredric Jameson Arthur Kroker and David Cook Timothy Leary Jean Fran ois Lyotard Larry McCaffery Brian McHale Dave Porush Bruce Sterling Darko Suvin Takayuki Tatsumi **Fanged Noumena** Nick Land, 2011-04-01 A dizzying trip through the mind s of the provocative and influential thinker Nick Land During the 1990s British philosopher Nick Land's unique work variously described as rabid nihilism mad black delezianism and cybergothic developed perhaps the only rigorous and culturally engaged escape route out of the malaise of continental philosophy a route that was implacably blocked by the academy However Land's work has continued to exert an influence both through the British speculative realist philosophers who studied with him and through the many cultural producers writers artists musicians filmmakers who have been invigorated by his uncompromising and abrasive philosophical vision Beginning with Land's early radical rereadings of Heidegger Nietzsche Kant and Bataille the volume collects together the papers talks and articles of the mid 90s long the

subject of rumour and vague legend including some work which has never previously appeared in print in which Land developed his futuristic theory fiction of cybercapitalism gone amok and ends with his enigmatic later writings in which Ballardian fictions poetics cryptography anthropology grammatology and the occult are smeared into unrecognisable hybrids Fanged Noumena gives a dizzying perspective on the entire trajectory of this provocative and influential thinker's work and has introduced his unique voice to a new generation of readers

Nietzsche's Corps/e Geoff Waite, 1996 Appearing between two historical touchstones the alleged end of communism and the 100th anniversary of Nietzsche's death this book offers a provocative hypothesis about the philosopher's afterlife and the fate of leftist thought and culture At issue is the relation of the dead Nietzsche corpse and his written work corpus to subsequent living Nietzscheanism across the political spectrum but primarily among a leftist corps that has been programmed and manipulated by concealed dimensions of the philosopher's thought If anyone is responsible for what Geoff Waite maintains is the illusory death of communism it is Nietzsche the man and concept Waite advances his argument by bringing Marxist especially Gramscian and Althusserian theories to bear on the concept of Nietzscheanism But he also goes beyond ideological convictions to explore the vast Nietzschean influence that proliferates throughout the marketplace of contemporary philosophy political and literary theory and cultural and technocultural criticism In light of a philological reconstruction of Nietzsche's published and unpublished texts Nietzsche's Corps/e shuttles between philosophy and everyday popular culture and shows them to be equally significant in their having been influenced by Nietzsche in however distorted a form and in a way that compromises all of our best interests Controversial in its decelebration of Nietzsche this remarkable study asks whether the postcontemporary age already upon us will continue to be dominated and oriented by the haunting spectre of Nietzsche's corps/e Philosophers intellectual historians literary theorists and those interested in western Marxism popular culture Friedrich Nietzsche and the intersection of French and German thought will find this book both appealing and challenging
