Roberts, 2002 *China to Chinatown* tells the story of one of the most notable examples of the globalization of food the spread of Chinese recipes ingredients and cooking styles to the Western world Beginning with the accounts of Marco Polo and Franciscan missionaries J A G Roberts describes how Westerners' first impressions of Chinese food were decidedly mixed with many regarding Chinese eating habits as repugnant Chinese food was brought back to the West merely as a curiosity The Western encounter with a wider variety of Chinese cuisine dates from the first half of the 20th century

when Chinese food spread to the West with emigrant communities The author shows how Chinese cooking has come to be regarded by some as among the world's most sophisticated cuisines and yet is harshly criticized by others for example on the grounds that its preparation involves cruelty to animals Roberts discusses the extent to which Chinese food as a facet of Chinese culture overseas has remained differentiated and questions whether its ethnic identity is dissolving Written in a lively style the book will appeal to food historians and specialists in Chinese culture as well as to readers interested in Chinese cuisine

Foodscares, Foodfields, and Identities in the Yucatán Steffan Igor Ayora-Diaz, 2012-01-01 The state of Yucatán has its own distinct culinary tradition and local people are constantly thinking and talking about food They use it as a vehicle for social relations but also to distinguish themselves from Mexicans This book examines the politics surrounding regional cuisine as the author argues that Yucatecan gastronomy has been created and promoted in an effort to affirm the identity of a regional people and to oppose the hegemonic force of central Mexican cultural icons and forms In particular Yucatecan gastronomy counters the homogenizing drive of a national cuisine based on dominant central Mexican appetencies and defies the image of Mexican national cuisine as rooted in indigenous traditions Drawing on post structural and postcolonial theory the author proposes that Yucatecan gastronomy having successfully gained a reputation as distinct and distant from Mexican cuisine is a bifurcation from regional culinary practices However the author warns this leads to a double paradoxical situation that divides the nation while a national cuisine attempts to silence regional cultural diversity the fissures in the project of a homogeneous regional identity are revealed
