**Railroads in Mexico** Francisco Garma Franco,1985-11-01 Illustrated History of New Mexico Benjamin Maurice Read,1976 The author of this work does not intend to say that there has not been both sincere and competent translations for most assuredly there have been many such For instance Hodge s translations of the narratives of Cabeza de Vaca De Soto Coronado Castaneda Jaramillo and other discoverers and conquerors of New Mexico do not in anything impair the sense nor the meaning of the original narratives but some of the English speaking authors have apparently only copied each other to the extent that no two of them agree in their translations whence a great deal of confusion arises in their exposition of historical events and incidents Such reasons as these led the author of this work to dedicate many years to the study of the original writings with the end in view of writing as correctly as possible a true his tory for which purpose be spared neither means nor ex penses and now he offers the present work as the fruit of his labors From the preface **MEXICO** JOHN W. SHERMAN,2026

Illustrated History of New Mexico Benjamin M. Read, 2015-06-11 Excerpt from Illustrated History of New Mexico The author of this work entered public life some years ago as a school teacher filling for the first time the honored post of preceptor of the College of the Christian Brothers Santa Fe New Mexico in the year 1876 and continuing thereafter for several years in charge of the various public schools of the Capital Thus it was that he came through personal observation and after many and very careful examinations of the several writings on history to notice that remarkable differences and striking contradictions exist among some of the English speaking authors in their respective narratives of historical events whenever it is a question of the discovery of America by Columbus the conquest colonization and christianization of Mexico by Cortes and of South America by Almagro and the Pizarro brothers The author of this work attributes the discrepancies and contradictions of the authors mentioned rather to the fact that they had perforce to depend absolutely on the translations which are supposed to have been made from the original works and original documents by translators who by reason of their never having seen the said originals and also because of their not being Spanish scholars have not in almost every instance rendered into correct English the spirit of the original texts changing quite often the substance of the language of the first authors whence the result has been that no two works of the same history translated from the Spanish into English by different translators can be found to agree with one another and much less with the original works This statement is easily proved by simple comparisons of the works of these writers with the original accounts given by the conquerors and first authors Upon comparison it will be readily seen that although they give long lists of the first authors and even of the discoverers and conquerors of New Mexico they have simply had former translations retranslated About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
