Imperialism and Theatre J. Ellen Gainor, 2003-09-02 Imperialism is a transnational and transhistorical phenomenon it occurs neither in limited areas nor at one specific moment In cultures from across the world theatrical performance has long been a site for both the representation and support of imperialism and resistance and rebellion against it Imperialism and Theatre is a groundbreaking collection which explores the questions of why and how the theatre was selected within imperial cultures for the representation of the concerns of both the colonizers and the colonized Gathering together fifteen noted scholars and theatre practitioners this collection spans global and historical boundaries and presents a uniquely comprehensive study of post colonial drama The essays engage in current theoretical issues while shifting the focus from the printed text to theatre as a cultural formation and locus of political force A compelling and extremely timely work Imperialism and Theatre reveals fascinating new dimensions to the post colonial debate Contributors Nora Alter Sudipto Chatterjee Mary Karen Dahl Alan Filewood Donald H Frischmann Rhonda Garelick Helen Gilbert Michael Hays Loren Kruger Josephine Lee Robert Eric Livingston Julie S Peters Michael Quinn Edward Said Elaine Savory

Reconceptualizing The Peasantry Michael Kearney, 2018-02-07 The concept of peasant has been constructed from residual images of pre industrial European and colonial rural society Spurred by Romantic sensibilities and modern nationalist imaginations the images the word peasant brings to mind are anachronisms that do not reflect the ways in which rural people live today In this path breaking book Michael Kearney shows how the concept has been outdistanced by contemporary history He situates the peasantry within the current social context of the transnational and post Cold War nation state and clears the way for alternative theoretical views Reconceptualizing the Peasantry looks at rural society in general and considers the problematic distinction between rural and urban Most definitions of and debates about peasants have focused on their presumed social economic cultural and political characteristics but Kearney articulates the way in which peasants define themselves in a rapidly changing world In the process he develops ethnographic and political forms of representation that correspond to contemporary postpeasant

identities Moving beyond a reconsideration of peasantry the book situates anthropology in global context showing how the discipline reconstructs itself and its subjects according to changing circumstances
