Occupying Our Space Cristina Devereaux Ramírez, 2015-04-02 Winifred Bryan Horner Outstanding Book Award Winner *Occupying Our Space* sheds new light on the contributions of Mexican women journalists and writers during the late nineteenth and early twentieth centuries marked as the zenith of Mexican journalism Journalists played a significant role in transforming Mexican social and political life before and after the Revolution 1910 1920 and women were a part of this movement as publishers writers public speakers and political activists However their contributions to the broad historical changes associated with the Revolution as well as the pre and post revolutionary eras are often excluded or overlooked This book fills a gap in feminine rhetorical history by providing an in depth look at several important journalists who claimed rhetorical puestos or public speaking spaces The book closely examines the writings of Laureana Wright de Kleinhans 1842 1896 Juana Bel n Guti rrez de Mendoza 1875 1942 the political group Las mujeres de Zit cuaro 1900 Hermila Galindo 1896 1954 and others Grounded in the overarching theoretical lens of mestiza rhetoric *Occupying Our Space* considers the ways in which Mexican women journalists negotiated shifting feminine identities and the emerging national politics of the late

nineteenth and early twentieth centuries With full length Spanish primary documents along with their translations this scholarship reframes the conversation about the rhetorical and intellectual role women played in the ever changing political and identity culture in Mexico

Conflicts and New Departures in World Society Volker Bornschier, 2017-10-24 This third volume in the World Society Studies series focuses on a central theme how market mechanisms can correct the world welfare deficit and also resolve the environmental crisis through processes of sustainable development The two editors trace how such objectives have been addressed since the 1960s and describe the parameters of the debate Conflicts and New Departures in World Society contains original research on confluences and fissures in emerging world society in both international and domestic arenas The sixteen contributors offer an unusually wide range of perspectives Topics include peace and war core periphery situations and social and labor conflicts Marek Thee traces the quest for a demilitarized and nuclear free world Johan Kaufmann analyzes the role of the United Nations in the post cold war era Jill Crystal concentrates on the human rights environment in the Arab World H C F Mansilla comments on the destruction of the tropical forests in Bolivia Other contributors include Bruce Russett Christian Suter John Foran Beverly Silver and Georg Kohler Conflicts and New Departures in World Society gives intellectual substance to the still nebulous notion of a world society It does so not by advocacy but by indicating parallel social economic and political conditions that compel new interactions between advanced and developing lands This book will be of interest to sociologists environmentalists and political theorists and scientists

Neoliberalism Revisited Gerardo Otero, 2018-05-04 Having unilaterally opened its borders to international competition and foreign investment in the mid 1980s Mexico has become one of the world's leading proponents of economic liberalization Nevertheless as the recent uprising of native peoples in Chiapas has made clear economic reforms are not universally welcomed This book addresses the challenges brought about by the restructuring of the Mexican economy at a time when multiple organizations of civil society are demanding a democratic political transition in a system that has been dominated by one party for nearly seventy years The contributors identify the key social and political actors both domestic and international involved in promoting or resisting the new economic model and examine the role of the state in the restructuring process They explore such questions as In what ways is the state itself being reconstituted to accommodate the demand for change How have Canada and the United States responded to the increased internationalization of their economies What are the challenges and prospects for transnational grassroots networks and labor solidarity Answers are provided by scholars from anthropology economics history political science and sociology all of whom promote interdisciplinary approaches to the issues Each chapter traces the structural transformations within the central social relationships in Mexican society during the last decade or so and anticipates future consequences of today's changes

Mexican Banking and Investment in Transition John A. Adams, 1997-04-22 Banking and investment in Mexico have changed radically over the past decade and the economic events that prompted these changes will have a significant impact

on Mexico's role in regional and world financial markets Adams traces the evolution of Mexico's banking and investment activities reviews current conditions and their implications for future investment opportunities in Mexico and makes clear that what happens to Mexico's economy and political stability will have major implications for what happens elsewhere in the world One of the first books to look at banking and investment in Mexico after the peso crash of 1994-1995 with a highly detailed bibliography and notes Adams's study will be important reading for international business finance and investment professionals and for their colleagues with similar interests throughout the academic community The fate of both Mexico and the United States is that the two countries are forever tied by geography The historical evolution of the dual interaction between the peoples of these two nations is and will be significant for the future of both countries With this in mind the book is divided into chapters reviewing such themes as the interaction and historical financial events that transpired during the advent of the North American Free Trade Agreement NAFTA and the expansion of cross border financial and investment services as well as a framework and background review of the events leading up to and resulting from the devaluations of the 1970s and 1980s and more recently the evolution of the peso crisis of 1994-1995 The imperceptible yet gradual economic integration of the two economies has required time in developing while not always being seamless in its implementation and transition American macroeconomic policy has long had a direct impact on the economy of Mexico as is evidenced by the impact of U.S. interest rates on the financial underpinnings of the Mexican treasury and the banking system to assist with the overall economic growth of the nation An appreciation for the historically sensitive issues and perspectives be they nationalization of the oil industry immigration or market access for foreign financial services is paramount to a fuller understanding of doing business on both sides of the border
