Mexicos Economic Crisis:

Mexico's Economic Crisis Miguel Ramirez, 1989-03-10 In his penetrating analysis of Mexico's current economic political and social situation Ramirez focuses on the major structural problems that underlie the nation's profound economic difficulties and the challenges they pose to its people Writing for both economists and political scientists Ramirez offers a framework of analysis for a better understanding of Mexico's economic crisis one based on an in depth examination of both its historical origins and its present ramifications The discussion is supported by comprehensive coverage of the relevant economic data making this one of the most thorough treatments of the subject available in print Following an introductory chapter that provides essential background information Ramirez addresses the historical and institutional background of the current situation His study is unusually broad based in scope encompassing such issues as the social costs of modernization and the legacy of revolution during the first part of this century Cardenas and the revolutionary process economic growth via import substitution policies the exhaustion of the Mexican growth model during the 1970s and 1980s the IMF austerity program The final chapters present cogently argued policy recommendations including alternatives to the austerity measures imposed by international lending organizations Ramirez's conclusions regarding the causes of Mexico's economic decline and his predictions for the country's economic future make an important contribution to the debate over Mexico's economic survival

Mexico's Economic Dilemma James M. Cypher, Raúl Delgado Wise, 2010-07-16 Written by two leading scholars this book provides a detailed analysis of Mexico's political economy James M Cypher and Raúl Delgado Wise begin with an examination of Mexico's pivotal economic crisis of the 1980s and the consequent turn toward an export led economy later anchored by NAFTA They show how Mexico after abandoning frequently successful past practices of state led development disastrously tied its future to an unconditional reliance on foreign corporations to promote an export led growth strategy Focusing on Mexico's cheap labor export model the authors use the maquiladora sector and the auto industry as case studies of the perils of globalization the race to the bottom as capital becomes ever more international The government's unconstrained free market policies they convincingly argue have resulted in a fragmented economy marked by stagnation

falling wages informal part time employment and massive migration which define daily life for all but a tiny minority
