of Time and Death Anna Vaninskaya, 2019-12-26 This book reveals the unique contribution made by the three founding
fathers of British fantasy Lord Dunsany E R Eddison and J R R Tolkien to our culture's perennial reassessment of the
meanings of time death and eternity It traces the poetic philosophical and theological roots of the striking preoccupation with
mortality and temporality that defines the imagined worlds of early fantasy fiction and gives both the form of such fiction and
its ideas the attention they deserve Dunsany Eddison and Tolkien raise some of the oldest questions in existence about the
limits of nature human and divine cosmic creation and destruction the immortality conferred by art and memory and the
paradoxes and uncertainties generated by the universal experience of transience the fear of annihilation and the desire for
transcendence But they respond to those questions by means of thought experiments that have no precedent in modern
literary history This book has won the 2021 Mythopoeic Scholarship Award for Myth and Fantasy Studies The Evolution
