Monarchy, Print Culture, and Reverence in Early Modern England Stephanie E. Koscak, 2020-06-11 This richly illustrated and interdisciplinary study examines the commercial mediation of royalism through print and visual culture from the second half of the seventeenth century The rapidly growing marketplace of books periodicals pictures and material objects brought the spectacle of monarchy to a wide audience saturating spaces of daily life in later Stuart and early Hanoverian England Images of the royal family including portrait engravings graphic satires illustrations medals and miniatures urban signs playing cards and coronation ceramics were fundamental components of the political landscape and the emergent public sphere Koscak considers the affective subjectivities made possible by loyalist commodities how texts and images responded to anxieties about representation at moments of political uncertainty and how individuals decorated

displayed and interacted with pictures of rulers Despite the fractious nature of party politics and the appropriation of royal representations for partisan and commercial ends print media images and objects materialized emotional bonds between sovereigns and subjects as the basis of allegiance and obedience They were read and re read collected and exchanged kept in pockets and pasted to walls and looked upon as repositories of personal memory national history and political reverence

Artists & Prints Deborah Wye, Starr Figura, Museum of Modern Art (New York, N.Y.), 2004 Volume covers the Collection of Prints and Illustrated Books not the collection of artists books **The Satirical Gaze** Cindy McCreery, 2004 This is the first scholarly study to focus on satirical prints of women in the late eighteenth century This was the golden age of graphic satire thousands of prints were published and they were viewed by nearly all sections of the population These prints both reflected and sought to shape contemporary debate about the role of women in society Cindy McCreery's study examines the beliefs and prejudices of Georgian England which they revealed **Esdaile's Manual of Bibliography** Roy Stokes, Romano Stephen Almagno, 2001 Designed for the literary student the student librarian and the beginning book collector this manual assumes nothing but interest at the outset In clear language it serves to take readers to the point at which they are prepared to turn to advanced texts to develop specialized interests The Oxford History of Western Art Martin Kemp, 2000 The Oxford History of Western Art is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the re definition of traditional period boundaries Rather than relying on conventional labels such as Medieval Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new

framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art history itself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors working under the direction of Professor Martin Kemp one of the UK's most distinguished art historians Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number of unifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints The result is a vibrant vigorous and revolutionary account of Western art serving both as an inspirational introduction for the general reader and an authoritative source of reference and guidance for students
