

An illustration in a sketchy, watercolor-like style. On the left, a man with short brown hair, wearing a brown jacket over a dark shirt and dark trousers, stands looking towards the center. In the center, a woman with blonde hair, wearing a light blue double-breasted jacket over a white dress, stands with her hands clasped in front of her, looking towards the man on the left. On the right, an older man with glasses, wearing a white lab coat over a light blue shirt and a dark bow tie, stands with his arms outstretched, looking towards the woman. The background shows a library or study with bookshelves filled with books. On the far left, there is a desk with various scientific or laboratory equipment, including flasks and a lamp. The floor is a light-colored checkered tile.

Miguel Mihura Julián Moreiro Prieto, 2004 **A New History of Spanish Literature** Richard E. Chandler, Kessel Schwartz, 1991-09-01 First published in 1961 A New History of Spanish Literature has been a much used resource for generations of students The book has now been completely revised and updated to include extensive discussion of Spanish literature of the past thirty years Richard E Chandler and Kessel Schwartz both longtime students of the literature write authoritatively about every Spanish literary work of consequence From the earliest extant writings though the literature of the 1980s they draw on the latest scholarship Unlike most literary histories this one treats each genre fully in its own section thus making it easy for the reader to follow the development of poetry the drama the novel other prose fiction and nonfiction prose Students of the first edition have found this method particularly useful However this approach does not preclude study of the literature by period A full index easily enables the reader to find all references to any individual author or book Another noteworthy feature of the book and one omitted from many books of this kind is the comprehensive attention the authors accord nonfiction prose including for example essays philosophy literary criticism politics and historiography Encyclopedic in scope yet concise and eminently readable the revised edition of A New History of Spanish Literature bids fair to be the standard reference well into the next century

Mi adorado Juan Miguel Mihura, 1964 From Silver Screen to Spanish Stage Stuart Nishan Green, 2011-05-31 This is the first book length English language study of a group of five artists closely linked with the Spanish avant garde in the 1920s and 1930s now known as the Other Generation of 27 In the same way that their contemporaries of the celebrated Generation of 27 which included Federico Garcia Lorca attempted a revolution of the arts through poetry inspired by European modernism the Other Generation of 27 attempted to renovate Spanish humour first in prose and then in the theatre and cinema This book demonstrates how these humorists drew on the humour of Chaplin Keaton Lubitsch and the Marx Brothers for their stage comedy and how they stretched the limits of the stage at the time by incorporating cinematic techniques such as flashback voice overs and montage in their search for new dramatic forms

course of this century Spanish film as a cultural institution is rarely divorced from the political and social currents that have shaped the larger Spanish culture torn as it was between tendencies of localism and internationalism It languished in industrial and artistic underdevelopment for many years under Franco it is now however experiencing international recognition while remaining rooted in the specificity of its own popular cultural styles Obituaries in the Performing Arts, 2017 Harris M. deseo aparece en el marco filmográfico estudiado como una fuente de resistencia simbólica y figurativa a las consignas represivas de la ideología censora. En la primera parte del libro se plantea una clasificación de los principales modelos de mujer que traspasaron los imaginarios cinematográficos durante las cuatro décadas del franquismo. El cuerpo hogar, la mujer patria, el cuerpo místico, la virgen casadera, el cuerpo espectacular, la mujer moderna y la mujer monstruo constituyen arquetipos cuyo examen pormenorizado permite descubrir las diferentes formas del deseo que la figuración femenina podía convocar más allá de que la mujer se conformara con una vida doméstica subordinada al marido o al orden patriarcal. En la segunda parte del libro se hace un recorrido por la filmografía de algunas de las principales actrices que encarnaron, matizaron e hicieron evolucionar dichos arquetipos: Aurora Bautista, Analía Gadé, Emma Penella, Josita Hernáiz, Lola Flores, Sara Montiel, Carmen Sevilla, Marisol, Concha Velasco, Geraldine Chaplin, Teresa Gimpera y Helga Liné. Todas ellas adoptaron en su forma de actuar una sugestiva poética de afirmación de los deseos femeninos. Siguiendo el mismo modelo de análisis de su anterior libro *El cuerpo erótico de la actriz durante los fascismos: España, Italia, Alemania, 1939-1945*, Nuria Bou y Xavier Pérez han convocado a un nutrido grupo de especialistas en cine español y estrellato fílmico para analizar la gestualidad, la fuerza expresiva de los cuerpos y las miradas de unas intérpretes que desbordaron a veces de forma más visible, a veces de manera más sutil, las pautas de contención que el Régimen había exigido a las mujeres de la época.

Fisuras en el firmamento Álvaro Álvarez Rodrigo, 2022-03-25. Fascinación glamour, seducción. Pocas figuras eran comparables a las estrellas de cine durante los años cuarenta y cincuenta cuando el espectáculo era el gran medio de entretenimiento de masas. En especial, las actrices que gozaron de una popularidad y un carisma que las convirtieron en instrumento de creación de identidades para muchas seguidoras. España también contó con su propia constelación. Sin embargo, en un contexto de precariedad y represión moral, estas mujeres no se ajustaban al ideal de feminidad que la dictadura franquista intentaba imponer al conjunto de españolas. Se constituyeron pues en modelos heterodoxos que suponían un desafío a los códigos normativos de género ya que no representaban los preceptos de domesticidad y maternidad subordinación al varón, recato. El presente libro muestra cómo a través de las películas que protagonizaron y de sus apariciones en los medios de comunicación se construyó su imagen como estrellas. Una proyección que a menudo resultaba incómoda para el Régimen que trató de resignificar o silenciar aquellos aspectos inconvenientes. Tres actrices encarnaron bien este desafío: Amparo Rivelles, Sara Montiel y Conchita Montes. Empoderamiento y resiliencia permitieron a la primera conducir su vida por los márgenes de las convenciones sociales. Montiel fue la primera sex symbol del franquismo y Montes una mujer intelectual que expresó reivindicaciones feministas. Cada una a su manera pusieron en evidencia las contradicciones y tensiones provocadas por las políticas de género franquistas.
