The College World Series W. C. Madden, Patrick J. Stewart, 2004-01-01 In 1947 the University of California and Yale University baseball teams took the field in Kalamazoo Michigan to play the first ever NCAA Division I College World Series. It was a two day three game series with an attendance of fewer than 4 000. Today it is a weeklong series held in Omaha Nebraska with eight teams, tens of thousands of fans, and millions more watching on television. This book covers each College World Series from 1947 through the 2003 series. For Division I the authors devote a chapter to each decade and then richly cover each game of each series. They also provide information on standout players, careers in baseball and other professions. The NCAA Division II and III team championships are also covered comprehensively, if briefly, and an appendix features short profiles of great college coaches.

The Economics of Regulation Alfred E. Kahn, 1988-06-22 As Chairman of the Civil Aeronautics Board in the late 1970s, Alfred E. Kahn presided over the deregulation of the airlines, and his book, published earlier in that decade, presented the first comprehensive integration of the economic theory and institutional practice of economic regulation. In his lengthy new introduction to this edition, Kahn surveys and analyzes the deregulation revolution that has not only swept the airlines but has transformed American public utilities and private industries generally over the past seventeen years. While attitudes toward regulation have changed several times in the intervening years and government regulation has waxed and waned, the question of whether to regulate more or to regulate less is a topic of constant debate, one that *The Economics of Regulation* addresses incisively. It clearly remains the standard work in the field, a starting point and reference tool for anyone working in regulation. Kahn points out that while dramatic changes have come about in the structurally competitive industries—the airlines, trucking, stock exchange, brokerage services, railroads, buses, cable television, oil, and natural gas—the consensus about the desirability and necessity for regulated monopoly in public utilities has likewise been dissolving under the burdens of inflation, fuel crises, and the traumatic experience with nuclear plants. Kahn reviews and assesses the changes in both areas; he is particularly frank in his appraisal of the effect of deregulation on the airlines. His conclusion today mirrors that of his original seminal work: that different industries need different mixes of institutional arrangements that cannot be decided on the basis of ideology.

Hearings United States. Congress. Senate. Committee on Commerce,

The Orange Bowl Tommy A. Phillips, 2023-01-19 The Orange Bowl has been played 88 times since 1935. Originating as the small Festival of Palms Bowl meant to attract tourists to Miami, it has grown into a national football event watched by 16 million people. Beginning with Bucknell's first victory over Miami, this book covers each Bowl in detail, including the first game in Miami Orange Bowl stadium in 1938, Charles Bryant's breaking of the color barrier in 1955, the four national championship games of the 1980s, the move to what is now Hard Rock Stadium in the 1990s, and the new era of the Bowl as a semifinal game in the College Football Playoff.

The Racial Politics of Division Monika Gosin, 2019-06-15 *The Racial Politics of Division* deconstructs antagonistic discourses that circulated in local Miami media between African Americans, white Cubans, and black Cubans during the 1980 Mariel Boatlift and the 1994 Balsero Crisis. Monika Gosin

challenges exclusionary arguments pitting these groups against one another and depicts instead the nuanced ways in which identities have been constructed negotiated rejected and reclaimed in the context of Miami's historical multiethnic tensions. Focusing on ideas of legitimacy Gosin argues that dominant race making ideologies of the white establishment regarding worthy citizenship and national belonging shape inter minority conflict as groups negotiate their precarious positioning within the nation. Rejecting oversimplified and divisive racial politics *The Racial Politics of Division* portrays the lived experiences of African Americans white Cubans and Afro Cubans as disrupters in the binary frames of worth citizenship narratives. Foregrounding the oft neglected voices of Afro Cubans Gosin posits new narratives regarding racial positioning and notions of solidarity in Miami. By looking back to interethnic conflict that foreshadowed current demographic and social trends she provides us with lessons for current debates surrounding immigration interethnic relations and national belonging. Gosin also shows us that despite these new demographic realities white racial power continues to reproduce itself by requiring complicity of racialized groups in exchange for a tenuous claim on US citizenship.
