## **Mica And Mica Industry:**

**U. S. Mica Industry Pioneers** Fred E. Davis, III, 2013-07-17 Mica is one of the most useful and versatile minerals It has been used since 40 000 B C E and is still used today in everything from cosmetics to advanced electronics Two families started the mica industry in the U S in the early 1800s and this is their story It began with Sam Ruggles a Boston merchant and grocer who purchased property in New Hampshire and had local folks quarry the mica Many myths about Sam Ruggles abound but historically accurate accounts of his family history and mica business are virtually nonexistent Sam s business included several members of his immediate family his nephew and grand nephew grandsons and great grandson Clearly there is a need for a thoroughly documented history of Sam Ruggles For over 60 years in the 1800s the Ruggles only competition was James Bowers a self sufficient farmer in New Hampshire and his family James loved collecting rocks and minerals and was a mineral dealer This led him into the mica business that continued across three generations of his family with mines in two states Before about 1870 the entire mica industry consisted of only the Ruggles and Bowers The family histories and mining histories for both Ruggles and Bowers are discussed in four separate chapters The mining history chapters describe mines opened and or operated by these two families in New Hampshire and North Carolina from 1805 to the early 1900s The Ruggles worked mines only in New Hampshire while the Bowers began in New Hampshire in the early 1830s and expanded into Western North Carolina in 1873 There is also a chapter describing early mica mining in Western North Carolina beginning with Native Americans around 200 B C E their trade with other tribes in the Mississippi Valley and their sales of kaolin for making china with England in the 1700s It also discusses some of the first commercial mica mines in Western North Carolina There are descriptions of what mica once known as isinglass is and how it s used for anyone not familiar with the mineral To make this a useful reference there are separate indexes for persons and subjects This book portrays the lives adventures business challenges and occasionally intense loss and sorrow of these pioneers across the 19th century The book is filled with maps photographs and illustrations many of which have never before been published and a historical account that is thoroughly documented A lot of forgotten history has been rediscovered **Mica and the Mica Industry** George Wetmore Colles, 1906 Problems and Prospects of Mineral Industry in India: A Study of Mica Industry Kumar Sanjay, 1993 **Mica and Mica Industry** B.B.L. Madhukar, S.N.P. Srivastava, 1995-01-01 Due to its insulating properties mica is of strategic importance to the electrical and electronics industry This work provides information on the mineral covering topics including geology prospecting mining and world trade production and other industrial aspects

**The Mineral Industry in North Carolina for 1924 and 1925** Herman J. Bryson, 1927 **War Changes in Industry Series** , 1943 War Changes in Industry Series United States Tariff Commission, 1946 *Us Mica Industry Pioneers 2* Fred Davis, 2018-09-29 The Second Edition fills in many dates and events not previously available including material not found online The histories of Sam Ruggles grandson George H Randall and great grandson Charles Ruggles Tainter both

involved with Ruggles mine and the mica industry are updated and expanded Mica is one of the most useful and versatile minerals It has been used since 40 000 B C E and is still used today in everything from cosmetics to advanced electronics Two families started the mica industry in the U S in the early 1800s and this is their story It began with Sam Ruggles a Boston grocer and merchant who purchased property in New Hampshire and had local folks quarry the mica Many myths about Sam Ruggles abound but historically accurate accounts of his family history and mica business are virtually nonexistent For over 60 years in the 1800s the Ruggles only competition was James Bowers a self sufficient farmer in South Acworth New Hampshire and his family James loved collecting rocks and minerals and was a mineral dealer This led him into the mica business that continued across three generations of his family with mines in two states Before about 1870 the Ruggles and Bowers were the mica industry and were known around the world This book portrays the lives adventures business challenges and occasionally intense loss and sorrow of these pioneers across the 19th century The book is filled with maps photographs and illustrations many of which have never before been published and a historical account that is thoroughly documented and indexed A lot of forgotten history has been rediscovered
