surprisingly children's literature is especially sensitive to such matters and fiction for children often struggles with dark and unpleasant issues. This book examines fin de siècle tensions in 19th and 20th century children's literature from around the world. Each chapter is written by an expert contributor and the volume ranges over a disparate variety of topics. These include poetry, series books, pacifist fiction, gender issues, religion, and literature, eco-criticism, minority experiences, humor, and the Holocaust, fantasy, and science fiction, and computer culture. In exploring these issues in relation to children's literature, the contributors reveal the shifting nature of our values and the world in which we live. Global in nature, the chapters look at children's literature from such places as Germany, Holland, the United Kingdom, Australia, and the United States.

***Humor in Contemporary Junior Literature*** Julie Cross, 2010-12-14 In this new book Julie Cross examines the intricacies of textual humor in contemporary junior literature using the tools of literary criticism and humor theory. Cross investigates the dialectical paradoxes of humor and debunks the common belief in oppositional binaries of simple versus complex humor. The varied combinations of so-called high and low forms of humor within junior texts for young readers who are at such a crucial stage of their reading and social development provide a valuable commentary upon the culture and values of contemporary western society, making the book of considerable interest to scholars of both children's literature and childhood studies. Cross explores the ways in which the changing content, forms, and functions of the many varied combinations of humor in junior texts, including the Lemony Snickett series, reveal societal attitudes towards young children and childhood. The new compounds of seemingly paradoxical high and low forms of humor in texts for developing readers from the 1960s onwards reflect and contribute to contemporary society's hesitant and uneven acceptance of the emergent paradigm of children's rights, abilities, participation, and empowerment. Cross identifies four types of potentially subversive, transgressive humor which have emerged since the 1960s, which coupled with the three main theories of humor—relief, superiority, and incongruity—enables a long overdue charting of developments in humor within junior texts. Cross also argues that the gradual increase in the compounding of the simple and the complex provides opportunities for young readers to play with ambiguous, complicated ideas, helping them embrace the complexities and contradictions of contemporary life.

**Children's Literature in Primary Schools** David Waugh, Sally Neaum, Rosemary Waugh, 2016-07-15 How can you help children to develop a love of reading and books? Which books are the best ones to use in primary teaching? How do you make the most of children's literature in teaching across the curriculum? Trainee and experienced primary school teachers need an advanced knowledge of children's literature. This is your guide to the range and scope of children's literature for the primary classroom. Through the exploration of different genres, it covers a wide range of literature and helps you to consider what we mean by literature. Case studies that model good practice are included, with suggestions for practical activities using literature to enhance teaching across the curriculum. Throughout, book recommendations show how specific texts can be used for teaching in exciting and innovative ways.
