Augustine's Early Theology of Image Gerald P. Boersma,2016-01-15 What does it mean for Christ to be the image of God
 And if Christ is the image of God can the human person also unequivocally be understood to be the image of God Augustine s
 Early Theology of Image examines Augustine s conception of the imago dei and makes the case that it represents a
 significant departure from the Latin pro Nicene theologies of Hilary of Poitiers Marius Victorinus and Ambrose of Milan only
 a generation earlier Augustine s predecessors understood the imago dei principally as a Christological term designating the
 unity of divine substance But Gerald P Boersma argues Augustine affirms that Christ is an image of equal likeness while the
 human person is an image of unequal likeness Boersma s careful study thus argues that a Platonic and participatory
 evaluation of the nature of image enables Augustine s early theology of the image of God to move beyond that of his Latin
 predecessors and affirm the imago dei both of Christ and of the human person British Warships in the Age of Sail.

 Revolution This superb reference book outlines the service history of every ship that fought for the Royal Navy in the great
 wars of the eighteenth century well over 2000 vessels The book is organized by Rate classification and class The technical
