Pistol and Revolver Arthur Corbin Gould, 2015-08-04 Excerpt from *The Modern American Pistol and Revolver Including a Description of Modern Pistols and Revolvers of American Make Ammunition Used in These Arms Results Accomplished And Shooting Rules Followed by American Marksmen* For many years the author was among the great number of persons who believed it was impossible to do fine shooting with a pistol beyond a few yards and out of the question to secure much accuracy from a revolver With the object of learning the limit of accuracy these arms possessed a great many experiments were arranged and exhibitions given by the most skilful marksmen to be found The spirit of rivalry soon became apparent and without doubt has considerably aided in determining the possibilities of the pistol and revolver The author feels that his labors have not been in vain as he has the testimony of manufacturers of these arms as well as cartridge makers that the results obtained within a period of three years are finer than it was thought possible About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Modern American Pistol and Revolver* Arthur Corbin Gould, 1888

The Modern American Pistol and Revolver; Including a Description of Modern Pistols and Revolvers of American Make; Ammunition Used in These Arms; Resu Arthur Corbin Gould, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1888 edition Excerpt CHAPTER VII AMMUNITION FOR PISTOLS AND REVOLVERS Nearly all the modern American pistols and revolvers are made to shoot metallic cartridges There are a few fine muzzle loading duelling and target pistols in use at the present time but the great amount of time necessary to load them in comparison with the modern breech loading arms makes them unpopular with most of the pistolshots and out of the question for revolvers for military use where rapidity of firing and reloading is required The difference between a muzzle and breech loading single shot pistol is apparently the same as the difference between the two systems of rifles If loaded a certain way there is no advantage in one over another Probably a muzzle loading pistol loaded the usual way of duelling pistols would show finer work than a breech loading pistol of the same weight length of barrel and bore loaded with a factory metallic cartridge But if two pistols exactly alike with the exception of one being a muzzle loader and the other a breech loader were loaded with the same charge one being loaded at the muzzle the other at the breech but instead of using a factory metallic cartridge the bullet was seated in the rifling and the shell loaded flush to its top and placed in the chamber after the manner of loading the modern breech loading target rifle it is believed that one pistol would shoot as well as the other Many of the foreign target and duelling pistols of recent

manufacture are made breechloading and loaded in the manner described The expert pistol shot is well aware that he can secure a great advantage by preparing ammunition for certain purposes in a manner different from the way the manufacturer makes it for the trade but this point will **The Modern American Pistol and Revolver** Gould A C,2016-06-23 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

shooters readily perceive the difference and waiving the convenience of a revolver with a five inch barrel which can be carried in the pocket they select one with a barrel not less than six inches and as the distance of out of door revolver shooting in America is from 25 to 50 yards they have a weapon capable of great accuracy at these distances *Modern American Pistols and Revolvers* Arthur Corbin Gould,2002 Smith & Wesson Hand Guns Roy C. McHenry,Walter F. Roper,2013-06-01 The story of Smith Wesson handguns and their evolution is one of the hallowed tales of American firearms history according to the firearms writer Jim Casada Anyone who collects Smith Wessons or is simply interested in their backstory will cherish this book Though originally published in 1945 more than half a century ago Smith Wesson Hand Guns remains the source for Smith Wesson enthusiasts It is an authoritative reference and has remained for over five decades the cornerstone upon which Smith Wesson research rests This work is foundational supported by sixty three detailed illustrations showing the handguns the unique hammer mechanism and facsimile reproductions of vintage advertising copy The first twenty four chapters of the book which tell the story of Smith and Wesson and the development of Smith Wesson handguns are very informative After the reader becomes familiar with Smith and Wesson s history together as well as their creation of a business illustrations exhibiting Smith Wesson handguns will show rather than tell of their magnificence Finally descriptions of different caliber guns are given where readers will gain invaluable information regarding Smith Wesson handguns For any Smith Wesson enthusiast or collector this work is impossible to put down Journal of the United States Artillery ,1904
