Qaum, Mulk, Sultanat Ali Usman Qasmi, 2023-12-12 After the trauma of mass violence and massive population movements around the partition of India and Pakistan in 1947 both new nation states faced the enormous challenge of creating new national narratives symbols and histories as well as a new framework for their political life While leadership in India claimed the anti colonial movement Gandhi and a civilizational legacy in the subcontinent the new political elite in Pakistan were faced with a more complex task to carve out a separate and distinct Muslim history and political tradition from a millennium long history of cultural and religious interaction mixing and coexistence Drawing on a rich archive of diverse sources Ali Qasmi traces the complex development of ideas of citizenship and national belonging in the postcolonial Muslim state offering a nuanced and sweeping history of the country's formative period Qasmi paints a rich picture of the long arduous and often conflict ridden process of writing a democratic constitution of Pakistan while simultaneously narrating the invention of a range of new rituals of state such as the exact color of the flag the precise date of birth of the national poet of Pakistan and the observation of Eid as a national festival providing an illuminating analysis of the practices of being Pakistani and a new portrait of Muslim history in the subcontinent Religion, Caste, and Politics in India Christophe Jaffrelot, 2010 Following independence the Nehruvian approach to socialism in India rested on three pillars secularism and democracy in the political domain state intervention in the economy and diplomatic non alignment mitigated by pro Soviet leanings after the 1960s These features defined a distinct Indian model if not the country's political identity From this starting point Christophe Jaffrelot traces the transformation of India throughout the latter half of the twentieth century particularly the

1980s and 90s The world's largest democracy has sustained itself by embracing not only the vernacular politicians of linguistic states but also Dalits and Other Backward Classes or OBCs The simultaneous and related rise of Hindu nationalism has put minorities and secularism on the defensive In many ways the rule of law has been placed on trial as well The liberalization of the economy has resulted in growth yet not necessarily development and India has acquired a new global status becoming an emerging power intent on political and economic partnerships with Asia and the West The traditional Nehruvian system is giving way to a less cohesive though more active India a country that has become what it is against all odds Jaffrelot maps this tumultuous journey exploring the role of religion caste and politics in determining the fabric of a modern democratic state

The Eastern Fleet and the Indian Ocean, 1942-1944 Charles Stephenson, 2022-04-06 A study of the British Royal Navy's activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for The Eastern Fleet and the Indian Ocean 1942 1944 This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web

Portuguese and Luso-Asian Legacies in Southeast Asia, 1511-2011, vol. 1 Laura Jarnagin, 2003-08-01. In 1511 a Portuguese expedition under the command of Afonso de Albuquerque arrived on the shores of Malacca taking control of the prosperous Malayan port city after a swift military campaign. Portugal, a peripheral but then technologically advanced country in southwestern Europe since the latter fifteenth century, had been in the process of establishing solid outposts all along Asia's littoral in order to participate in the most active and profitable maritime trading routes of the day. As it turned out, the Portuguese presence and influence in the Malayan Peninsula and elsewhere in continental and insular Asia expanded far beyond the sphere of commerce and extended over time well into the twenty-first century. Five hundred years later a conference held in Singapore brought together a large group of scholars from widely different national, academic, and disciplinary contexts to analyse and discuss the intricate consequences of Portuguese interactions in Asia over the longue duree. The result of these discussions is a stimulating set of case studies that as a rule combine original archival and/or field research with innovative historiographical perspectives. Luso-Asian communities, real and imagined, and Luso-Asian heritage material and symbolic are studied with depth and insight. The range of thematic, chronological, and geographic areas covered in these proceedings is truly remarkable, showing not only the extraordinary relevance of revisiting Luso-Asian interactions in the longer term but also the surprising dynamism within an area of studies which seemed on the verge of exhaustion. After all, archives from all over the world, from Rio de Janeiro to London, from Lisbon to Rome and from Goa to Macao, might still hold some secrets on the subject of Luso-Asian relations when duly explored by resourceful scholars. Rui M. Loureiro, Centro de Historia de Alem Mar, Lisbon.

The Five Power Defence Arrangements Ang Cheng Guan, 2025-03-04. Ang describes the development of the Five Power Defence Arrangements (FPDA), an important security regional arrangement, from its inception to the present from the perspectives of the five FPDA allies. The book recounts the establishment of the FPDA in 1971 from the Anglo-Malaysian Defence Agreement and its development in the first 20 years to the end of the Cold War in 1990. Based on declassified archival documents and secondary literature, it explores how the FPDA has evolved and adapted to provide different benefits to each of its partners after the Cold War. Ang contextualises the FPDA within existing scholarship and offers a glimpse into possible future trajectories. A valuable resource for scholars, students, researchers, and professionals interested in international history, defence, and security.

Qing Colonial Enterprise Laura Hostetler, 2005-12-15 In *Qing Colonial Enterprise* Laura Hostetler shows how Qing China 1636 1911 used cartography and ethnography to pursue its imperial ambitions She argues that far from being on the periphery of developments in the early modern period Qing China both participated in and helped shape the new emphasis on empirical scientific knowledge that was simultaneously transforming Europe and its colonial empires at the time Although mapping in China is almost as old as Chinese civilization itself the Qing insistence on accurate to scale maps of their territory was a new response to the difficulties of administering a vast and growing empire Likewise direct observation became increasingly important to Qing ethnographic writings such as the illustrated manuscripts known as Miao albums from which twenty color paintings are reproduced in this book These were intended to educate Qing officials about various non Han peoples so that they could govern these groups more effectively Hostetler s groundbreaking account will interest anyone studying the history of the early modern period and colonialism
