**Education and Society in Bhutan** Chelsea M. Robles,2016-05-26 Bhutan's education sector has attracted international attention for recent reforms driven by the national development philosophy of Gross National Happiness which aspires to balance change with the continuity of tradition This book traces the history of education in Bhutan and reveals that as the country has modernised and become globally connected and further influenced by international and Western mores tensions have emerged across the education sector The author examines how these tensions between the curriculum and local knowledges can impact teaching and learning and offers approaches to addressing them Based on extensive empirical data including in depth interviews and classroom observations Robles analyzes the discourses of high level officials who were involved in the early development of the modern system of education a range of education leaders and teachers Filling a gap in the literature this book is an invaluable resource for students and researchers interested in the formation of education policy social and political reform in Bhutan and South Asia Studies      *Fabric of Life - Textile Arts in Bhutan* Karin Altmann,2015-11-27 This extensive work dedicated to the unique textile art of Bhutan is an impressive illustration of how closely art spirituality and life are interwoven in the last of the Buddhist kingdoms in the Himalayas It gives new insight into Bhutanese cosmology worldview culture and society which is associated with a variety of historical philosophical religious social and artistic perspectives The remote mountain location low key foreign policy and basic principles of Buddhism has made it possible for Bhutan the last of the Buddhist kingdoms in the Himalayas to preserve a remarkable form of textile art that is interwoven with all aspects of life Karin Altmann shows us Bhutan textiles in their diversity they are clothes and

everyday objects currency and commodity mark important events as gifts during life and are testament to the social status of a person But they are also an integral aspect of religious festivals dances and rituals that provide insight into the mystical and religious beliefs of the Bhutanese people and reflect the concept of gender in Bhutanese society The book also tells the story of a country that is searching for a sensitive balance between tradition and progress in a globalized world Bhutan Ramakant,Ramesh Chandra Misra,1996 Contributed articles presented at an international seminar April 1993 predominantly on social and economic conditions **The Royal Semi-Authoritarian Democracy of Bhutan** Dhurba Rizal,2015-07-22 The book puts into plain words a changing dimension of politics in a traditional regime and offers an insight into the emerging transition to royal semi authoritarian democracy in Bhutan Bhutan represents a political system which coalesces the rhetorical acquiescence of democracy with illiberal authoritarian attributes under the former royalist shadow Royal democracy is a myth and only paints the frontage of democracy The smokescreen of this kind of authoritarian regime is not yet democracy but is instead a new form of semi authoritarian rule The political reforms in Bhutan were orchestrated by the traditional regime and elites in a traditional society as a tightly controlled top down process without devolution of power outside the regime Royal Democracy can best be understood as an attempt to construct a political regime that impersonates democratic institutions but works outside the logic of political representation and seeks to repress any vestige of genuine political pluralism Exploring the authoritarian logic behind the democratic rhetoric is especially important for Bhutan which is today glorified by the UN as The Mecca of Gross National Happiness and depicted by many as a model of top down democracy on popular media and in academia Holding State controlled elections alone does not create a cure for deeper political economic and social predicaments besetting Bhutan and does not create a solid foundation for democratic transition The glitter of royal semi authoritarian democracy is a Jigmeocracy an old Jigme s system with new labels a classic case of transition from a traditional regime in a traditional society *Designing Sustainable Cities in the Developing World* Georgia Butina Watson,2016-04-22 Can conservation of the built heritage be reconciled with the speed of urban change in cities of the developing world What are the tools of sustainable design and how can communities participate in the design of the environments in which they live and work These are some of the questions explored within this innovative and richly illustrated book A wealth of examples drawn from Mexico Brazil Indonesia Egypt Saudi Arabia India and Myanmar demonstrate how rapid physical and social change has swept away historic urban quarters and the cultural heritage they represent Written in an accessible style the rich mix of concepts research methods analysis and practice based tools is designed for academics and professionals alike Leading academics Zetter and Watson have produced a fascinating book that is amongst the first to explore the concept of urban sustainability within the context of urban design in the developing world **Handbook of Research on Teacher Education** Myint Swe Khine,Yang Liu,2022-03-18 This comprehensive book presents emerging research findings and promising reform practices in the field of teacher education curriculum assessment

Heneise, 2022-08-09 The Routledge Handbook of Highland Asia is the first comprehensive and critical overview of the ethnographic and anthropological work in Highland Asia over the past half a century Opening up a grand new space for critical engagement the handbook presents Highland Asia as a world region that cuts across the traditional divides inherited from colonial and Cold War area divisions the Indian Subcontinent South Asia Southeast Asia China East Asia and Central Asia Thirty two chapters assess the history of research identify ethnographic trends and evaluate a range of analytical themes that developed in particular settings of Highland Asia They cover varied landscapes and communities from Kyrgyzstan to India from Bhutan to Vietnam and bring local voices and narratives relating trade and tribute ritual and resistance pilgrimage and prophecy modernity and marginalization capital and cosmos to the fore The handbook shows that for millennia Highland Asians have connected far flung regions through movements of peoples goods and ideas and at all times have been the enactors repositories and mediators of world historical processes Taken together the contributors and chapters subvert dominant lowland narratives by privileging primarily highland vantages that

reveal Highland Asia as an ecumene and prism that refracts and generates global history social theory and human imagination In the currently unfolding Asian Century this compels us to reorient and re envision Highland Asia in ethnography in theory and in the connections between this world region made of hills highlands and mountains and a planetary context The handbook reveals both regional commonalities and diversities generalities and specificities and a broad orientation to key themes in the region An indispensable reference work this handbook fills a significant gap in the literature and will be of interest to academics researchers and students interested in Highland Asia Zomia Studies Anthropology Comparative Politics Conceptual History and Sociology Southeast Asian Studies Central Asian Studies and South Asian Studies as well as Asian Studies in general      **The Modern History of the Indian Chiefs, Rajas, Zamindars, & C: The native states** Lokanātha Ghosha, 1879
