**Modern China** Ian W. Mabbett,1985      **Modern China** I. W. Mabbett,2024-11-01 Most writing on modern China dwells on those aspects which are new to China since the Communist takeover stressing above all politics Marxism economic and agricultural development First published in 1985 Modern China argues that all this writing creates a false impression of what present day China is really like This book contends that much of traditional China remains particularly at the grass roots level and that Buddhism and the Buddhist tradition continue to exert an influence Politics in communist China is best understood in the context of this tradition Throughout arguments are supported by revealing how tradition continues in the economy in society and the family by examining in detail the Buddhist tradition and by using the case study of education to show the interplay between modern and customary forces      Developmental Fairy Tales Andrew F. Jones,2011-05-02 Jones revises our understanding of modern China by tracing the ways that evolutionary works developed into a form of vernacular knowledge in modern Chinese literature From children s primers to print culture from fairy tales to filmmaking his analysis offers an innovative and interdisciplinary angle of vision on China s cultural evolution      *The Statesman's Year-Book 1989-90* J.
