**Culture, Class, and Critical Theory** David Gartman, 2013 Culture Class and Critical Theory develops a theory of culture that explains how ideas create and legitimate class inequalities in modern society This theory is developed through a critique and comparison of the powerful ideas on culture offered by Pierre Bourdieu and the Frankfurt School thinkers especially Theodor Adorno These ideas are illuminated and criticized through the development of two empirical cases on which Gartman has published extensively automobile design and architecture Bourdieu and the Frankfurt School postulate opposite theories of the cultural legitimation of class inequalities Bourdieu argues that the culture of modern society is a class culture a ranked diversity of beliefs and tastes corresponding to different classes The cultural beliefs and practices of the dominant class are arbitrarily defined as superior thus legitimating its greater share of social resources By contrast the thinkers of the Frankfurt School conceive of modern culture as a mass culture a leveled homogeneity in which the ideas and tastes shared by all classes disguises real class inequalities This creates the illusion of an egalitarian democracy that prevents inequalities from being contested Through an empirical assessment of the theories against the cases Gartman reveals that both are correct but for different parts of modern culture These parts combine to provide a strong legitimation of class inequalities

**The Domestication of Critical Theory** Michael J. Thompson, 2016-02-26 Critical theory was one of the most vigorous and insightful intellectual traditions of the twentieth century At its core was a critique of culture and consciousness tied to instrumental rationality and capitalist economic life Yet Michael J Thompson argues in this highly original book that this once critical tradition has been domesticated it no longer offers a philosophically convincing nor politically viable form of social critique Thompson demonstrates that critical theory

has surrendered its concerns with domination alienation and the pathologies of capitalist modernity and shifted its focus toward neo Idealist themes This new critical theory has turned its back on the insights of the classical critical theorists Thompson traces how this shift occurred and how we can reclaim critique in an age of conformism apathy and depoliticization He goes on to defend the different aspects of critical theory that can be used to reformulate social critique one that must be brought into a dialogue with contemporary political social and moral philosophy that protects the lasting and crucial legacy of critical theory as an emancipatory political project New Media, Cultural Studies, and Critical Theory after Postmodernism R. Samuels, 2009-12-07 This book argues that we have moved into a new cultural period automodernity which represents a social psychological and technological reaction to postmodernity In fact by showing how individual autonomy is now being generated through technological and cultural automation Samuels posits that we must rethink modernity and postmodernity *Critical Theory: The Key Concepts* Dino Felluga, 2015-04-17 Critical Theory The Key Concepts introduces over 300 widely used terms categories and ideas drawing upon well established approaches like new historicism postmodernism psychoanalysis Marxism and narratology as well as many new critical theories of the last twenty years such as Actor Network Theory Global Studies Critical Race Theory and Speculative Realism This book explains the key concepts at the heart of a wide range of influential theorists from Agamben to i ek Entries range from concise definitions to longer more explanatory essays and include terms such as Aesthetics Desire Dissensus Dromocracy Hegemony Ideology Intersectionality Late Capitalism Performativity Race Suture Featuring cross referencing throughout a substantial bibliography and index Critical Theory The Key Concepts is an accessible and easy to use guide This book is an invaluable introduction covering a wide range of subjects for anyone who is studying or has an interest in critical theory past and present **Critical Theory and Society** Stephen Eric Bronner, Douglas Kellner, 1989 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company Critical Theory and Methodology Raymond A.
