Modern Embroidery Mary Hogarth, 2015-06-02 Excerpt from *Modern Embroidery* It is generally recognised to day and strongly so in the United States that technical skill is not in itself sufficient to produce work of distinction but that a basis of good design is equally essential While this has never been denied in the case of painting and sculpture there has until recently been a tacit assumption that one or two minor arts such as that of embroidery could get along very well without much conscious design were if anything the better for it The art of the embroideress was judged rather by the cunning of her fingers than her eye and anything supremely difficult of execution could be sure of praise regardless of its meaning or use Hence the increasingly debased repetition of traditional patterns by means of transfers patterns not designs It is not possible to get full satisfaction from work limited to the reproduction of worn out ideas Everyone is an artist to a greater or less degree and it is the aim of this book to help its readers to discover their own powers The dozens of examples from all over the world which it contains are the work of artists with the needle but their artistry is of a kind within the reach of all intelligent people There are hundreds of ideas here waiting for you to develop them into designs of your own as attractive as useful and as modern as these The Editor desires to express his acknowledgments to the designers and embroiderers who have permitted their works to be reproduced in this book and for their assistance in compiling the descriptions and in many cases preparing explanatory diagrams About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Jugendstil Women and the Making of Modern Design Sabine Wieber, 2021-10-21 Jugendstil that is Germany's distinct engagement with the international Art Nouveau movement is now firmly engrained in histories of modern art architecture and design Recent exhibitions and publications across the world explored Jugendstil's key protagonists and artistic centres to firmly anchor their activities within the trajectories of German modernism Women however continue to be largely absent from these revisionist accounts *Jugendstil Women and the Making of Modern Design* argues that women in fact actively participated in the cultural and socio economic exchanges that generated German design responses to European modernity By drawing on

previously unpublished archival material and a series of original case studies including Elsa Bruckmann's Munich salon the Photo Studio Elvira and the Debschitz School the book explores women's important contributions to modern German culture as collectors consumers critics designers educators and patrons This book offers a new interpretation of this vibrant period by considering diverse manifestations of historical female agency that pushed against historically entrenched conventions and gender roles The book's rigorous approach reshapes Jugendstil historiography by positing women's lived experiences against dominant ideologies that emerged at this precise moment In short the book advocates women as an integral part of the emergence dissemination and reception of Jugendstil and questions the deeply gendered histories of this key period in modern art architecture and design
