Modern Nicaraguan Poetry Steven F. White, 1993 This work demonstrates that twentieth century Nicaraguan poetry can not be comprehended in its fullest dimension without an understanding of the literary traditions of France and the United States Ever since Ruben Dario established Hispanic America's literary independence from Spain in the nineteenth century with his modernista revolution poets in Nicaragua actively have engaged in a dialogue with the works of French and North American authors as a means of assimilating and transforming them and thereby inventing a profoundly Nicaraguan literary identity This process has resulted in what might be called a double genealogy in Nicaraguan poetry certain poets attracted to the alchemical properties of the poetic word and a transcendent mythic meta reality seem to have descended from French literary forebears others interested in an expansive poeticized version of history and verisimilitude have roots that might be traced to North American soil This division is a provisional experimental means of grouping Nicaraguan poets based not on the traditional compartmentalization of literary generations but on the family resemblances of poetic affinities Presented here is an effective analysis of the familial nature of the Nicaraguan poets achieving their own literary independence by taking into account socio political and historical considerations common literary themes as well as the intertextual relations that form the basis of international literary dialogues This rigorous but flexible approach to modern Nicaraguan poetry enables the reader to accompany the poets on their journeys toward God and the end of the world into a timeless Nicaraguan landscape invaded by U S Marines beyond a contemporary urban portrait of Los Angeles through the horrifying European battlefields of World War I and the trenches of Nicaragua's revolution against the Somoza dictatorship The English speaking reader probably will be unfamiliar with most of the seven preeminent Nicaraguan poets whose works are the subject of this book but it is hoped that the reader will realize that the poetry of Nicaraguans Alfonso Cortes Salomon de la Selva Jose Coronel Urtecho Pablo Antonio Cuadra Joaquin Pasos Carlos Martinez Rivas and Ernesto Cardenal is worthy of serious study Furthermore the poems of these authors take on a richer meaning when they are studied as co presences in relation to certain texts by Baudelaire Rimbaud Mallarme and Supervielle or in an American context by poets such as Whitman Pound Eliot and Masters A relatively small country with a rich diverse tradition in poetry Nicaragua has maintained high literary standards generation after generation and has produced poets of a world class stature whose time has come for greater recognition *Spanish American Poetry at the End of the Twentieth Century* Jill Kuhnheim, 2010-07-05 Has poetry lost its relevance in the postmodern age unable to keep pace with other forms of cultural production such as film mass media and the Internet Quite the contrary argues Jill Kuhnheim in this pathfinding book which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time Using a variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national

sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of Spanish American poetry since the 1970s

Rediscovering Rubén Darío through Translation Carlos F. Grigsby,2024-06-13 A long overdue examination of Rub n Dar o s multilingual work and influences alongside the contexts and politics of canonization in world literature Rediscovering Rub n Dar o through Translation addresses the peculiar obscurity of Dar o by asking these questions How can one of the most important writers of a major world language be almost entirely unknown in the English speaking world How is it that other writers of the same language e g Lorca or Garc a M rquez achieve widespread recognition in the anglophone world while he remains unnoticed What role does translation play in this What can it tell us about the way in which world literature is articulated Carlos F Grigsby approaches Dar o s oeuvre through translation In doing so he explores not only the place of Dar o in the translation of Spanish American literature into English but also the place of translation in Dar o s own writing The result is a double sided painting as it were the recto is titled Translation in Dar o and the verso Dar o in Translation This book challenges the field of world literature by revealing some of the biases present in its representation of Spanish American literature It adopts a multilingual framework chiefly using English Spanish French and to a lesser degree Latin and Catalan in analyzing Dar o s writing alongside that of his

contemporaries As a result it reveals the multilingualism of Dar o s own writing opening new avenues for the study of his work and of Spanish American modernismo more generally *Modern Spanish American Poets* María Antonia Salgado,2004 Contains alphabetically arranged entries that provide career biographies of nearly fifty modern Spanish American poets each tracing the development of the author s canon and the evolution of his or her reputation and including a bibliography of works *Transgression and Conformity* Linda S. Practicing Memory in Central American Literature N. Caso,2010-03-29 Through penetrating analysis of twentieth century historical fiction from Central America this book asks why do so many literary texts in the region address historical issues What kinds of stories are told about the past when authors choose the fictional realm to represent history Why access memory through fiction and poetry Nicole Caso traces the active interplay between language space and memory in the continuous process of defining local identities through literature Ultimately this book looks to the dynamic between form and content to identify potential maps that are suggested in each of these texts in order to imagine possibilities of action in the future
