Modern Philosophy From Descartes To Nietzsche:

Modern Philosophy - From Descartes to Nietzsche Steven M. Emmanuel, Patrick Goold, 2002-02-15 Modern Philosophy An Anthology features a broad range of selections from important but seldom anthologized works in the philosophy of psychology natural science morality politics and religion Features a broad range of selections from works in the philosophy of psychology natural science morality politics and religion Places the modern thinkers in conversation with each other including Leibniz on Descartes and Spinoza Reid on Locke and Hume and Kant on Hobbes Offers important but seldom anthologized primary works The European Philosophers from Descartes to Nietzsche Monroe Beardsley, 2002-11-12

Between the earliest and the latest of the works included here we have two hundred and fifty years of vigorous and adventurous philosophizing Monroe Beardsley writes in his Introduction to this collection If the modern period can be only vaguely or arbitrarily bounded it can at least be studied and we can ask whether any dominant themes overall patterns of movement or notable achievements can be found within it This question is one that is best asked by the reader after he has read or read around in these works This Modern Library Paperback Classic also includes a newly updated Bibliography

Nietzsche and Modern Times Laurence Lampert, 1993-01-01 This major work by Laurence Lampert provides a new interpretation of modern philosophy by developing Nietzsche's view that genuine philosophers set out to determine the direction of culture through their ideas and that they conceal the radical nature of their thought by their esoteric style From this Nietzschean perspective Francis Bacon and Ren Descartes can be considered the founders of modernity Lampert argues that Bacon's positive claims for science aimed to destroy the dominance of Christianity Descartes continued Bacon's radical program while providing it with the mathematical physics required for its success Far from being solely an epistemological and metaphysical thinker says Lampert Descartes was a master writer whose comic ridicule helped bring down the Church to which he paid lip service Both Bacon and Descartes used the Platonic art of dissimulation to achieve their ends by making their revolutionary aims appear compatible with Christianity Once we recognize Bacon and Descartes as legislators of modern times in a specifically Nietzschean sense we can also see Nietzsche in a new way as the first thinker to have understood modern times and transcended it in a postmodern worldview According to Lampert Nietzsche provides a new foundation for culture a joyous science that reveals the grandeur and purposeless play of the cosmic whole and yet avoids enervating despair or destructive dogmatic belief **The Blackwell Guide to the Modern Philosophers** Steven M.

Emmanuel, 2001 This guide brings together original interpretations of the modern philosophers from Descartes to Nietzsche The contributors succeed brilliantly in placing their figures within a rich historical cultural and philosophical context noting some of the important ways in which their ideas and arguments were shaped by the intellectual currents of the time and how they in turn shaped subsequent philosophical debate The European Philosophers from Descartes to Nietzsche Monroe C. Beardsley, 2003-01 Between the earliest and the latest of the works included here we have two hundred and fifty years of

vigorous and adventurous philosophizing Monroe Beardsley writes in his Introduction to this collection If the modern period can be only vaguely or arbitrarily bounded it can at least be studied and we can ask whether any dominant themes overall patterns of movement or notable achievements can be found within it This question is one that is best asked by the reader after he has read or read around in these works This Modern Library Paperback Classic also includes a newly updated Bibliography

Nietzsche's Task Laurence Lampert, 2008-10-01 When Nietzsche published *Beyond Good and Evil* in 1886 he told a friend that it was a book that would not be read properly until around the year 2000 Now Laurence Lampert sets out to fulfill this prophecy by providing a section by section interpretation of this philosophical masterpiece that emphasizes its unity and depth as a comprehensive new teaching on nature and humanity According to Lampert Nietzsche begins with a critique of philosophy that is ultimately affirmative because it shows how philosophy can arrive at a defensible ontological account of the way of all beings Nietzsche next argues that a new post Christian religion can arise out of the affirmation of the world disclosed to philosophy Then turning to the implications of the new ontology for morality and politics Nietzsche argues that these can be reconstituted on the fundamental insights of the new philosophy Nietzsche's comprehensive depiction of this anti Platonic philosophy ends with a chapter on nobility in which he contends that what can now be publicly celebrated as noble in our species are its highest achievements of mind and spirit

A Dark History of Modern Philosophy Bernard Freydberg, 2017-08-14 This provocative reassessment of modern philosophy explores its nonrational dimensions and connection to ancient mysteries Delving beneath the principal discourses of philosophy from Descartes through Kant Bernard Freydberg plumbs the previously concealed dark forces that ignite the inner power of modern thought He contends that reason itself issues from an implicit and unconscious suppression of the nonrational Even the modern philosophical concerns of nature and limits are undergirded by a dark side that dwells in them and makes them possible Freydberg traces these dark sources to the poetry of Hesiod the fragments of Heraclitus and Parmenides and the Platonic dialogues and claims that they rear their heads again in the work of Spinoza Schelling and Nietzsche Freydberg

secularization scientism the sexual revolution and the history of modern Western culture **Mind** ,1904 A quarterly review of philosophy *The Rhetoric of Philosophy* Shai Frogel,2005-09-22 The book claims that philosophy can be defined by its distinct rhetoric This rhetoric is shaped by two values humanism and critique Humanism is defined as preferring the individual human deliberation to any external authority or method Self conviction is the touchstone of truth in philosophy Critique is defined as suspecting your beliefs and convictions This is the reason why the book uses Nietzsche s definition of the will to truth the will not to deceive not even myself for explaining the nature of philosophical thinking and argumentation This rhetorical analysis reveals that the danger of self deception is a constitutive yet irresolvable problem of philosophy The subjects of the book are the relations between philosophy and rhetoric the speaker and the addressee of philosophical arguments the subordination of logic to rhetoric in philosophy and the philosophical problem of self deception This work unburdened with philosophers jargon fits well in the current critical debate about the relevance of pragmatic features of the concepts of subjectivity and truth **Kant and the Historical Turn** Karl Ameriks,2006-09-14 Immanuel Kant s work changed the course of modern philosophy Karl Ameriks examines how He compares the philosophical system set out in Kant s Critiques with the work of the major philosophers before and after Kant Individual essays provide case studies in support of Ameriks s thesis that late 18th century reactions to Kant initiated an historical turn after which historical and systematic considerations became joined in a way that fundamentally distinguishes philosophy from science and art [The Bonn Handbook of Globality](#) Ludger Kühnhardt,Tilman Mayer,2019-02-21 This two volume handbook provides readers with a comprehensive interpretation of globality through the multifaceted prism of the humanities and social sciences Key concepts and symbolizations rooted in and shaped by European academic traditions are discussed and reinterpreted under the conditions of the global turn Highlighting consistent anthropological features and socio cultural realities the handbook gathers coherently structured articles written by 110 professors in the humanities and social sciences at Bonn University Germany who initiate a global dialogue on meaningful and sustainable notions of human life in the age of globality Volume 1 introduces readers to various interpretations of globality and discusses notions of human development communication and aesthetics Volume 2 covers notions of technical meaning of political and moral order and reflections on the shaping of globality
