Modern American Communes:

The Children of Prosperity Hugh Gardner, 1978-01-01 Two Hundred Years of American Communes Yaacov Oved, 2017-09-08 The United States is the only modern nation in which communes have continuously existed for the past two hundred years This definitive history of communes in America examines the major factors that have supported the existence and growth of communes throughout American history The most impressive survey of the communal experience since the works of Noyes and Nordhoff it is informed by a deep respect for the human subjects and organizational forms of American communes The findings in the analytical chapters are of considerably theoretical import beyond the historical narrative Oved details the founding growth development and sometimes failure of alternative societies from 1735 to 1939 Icaria Ephrata Oneida Shaker religious secular and socialist communes Extensive reference material cited will assure this work a special place in the archives of the literature on communes *Contemporary Asian American Communities* Linda Trinh Vo, Rick Bonus, 2002-04-10 Once thought of in terms of geographically bounded spaces Asian America has undergone profound changes as a result of post 1965 immigration as well as the growth and reshaping of established communities This collection of original essays demonstrates that conventional notions of community of ethnic enclaves determined by exclusion and ghettoization now have limited use in explaining the dynamic processes of contemporary community formation Writing from a variety of perspectives these contributors expand the concept of community to include sites not necessarily bounded by space formations around gender class sexuality and generation reveal new processes as well as the demographic diversity of today's Asian American population The case studies gathered here speak to the fluidity of these communities and to the need for new analytic approaches to account for the similarities and differences between them Taken together these essays forcefully argue that it is time to replace the outworn concept of a monolithic Asian America Modern American Communes Robert P. Sutton, 2005-04-30 Entries include Amity Colony Farm Eco Village Holy City David Koresh Shaker Communities The Farm and Donald Walters among many others **Globalization of Communes** Yaacov Oved, 2017-09-08 After World War II communes and cooperative communities became internationally oriented in their membership and networking began to develop Unlike earlier such enterprises these groups shared an openness to international relationships This was evident both in the groups social composition and in the extension of networks beyond their own country Such globalization opened up the possibility of comparative analysis which has become a trend in research since the 1950s The dynamism and speed with which voluntary communities have spread throughout the world is impressive In the 1950s there were only a few hundred such societies but by the end of the last century there were thousands These have taken a variety of forms There are religious and secular communes intentional communities ecological communities co housing projects various types of Christian communities communities of Eastern religions and spiritual communities inspired by New Age thought Yaacov Oved shows that such societies maintain a community based on cooperation and expand their influence through

newspapers television and the Internet Their chief characteristic is their openness to the outside world and their search for a way to move beyond a world of individualism and competitiveness To accomplish this they embrace all the tools of the modern world Oved observes that those who predicted the failure of communes and intentional communities failed to appreciate the extent to which people in today s society aspire to communal life This book answers the doubters and does so with a sense of deep historical understanding **Communes in America, 1975-2000** Timothy Miller,2019-03-26

Communes in America 1975 2000 is the final volume in Miller s trilogy on the history of American intentional communities Providing a comprehensive survey of communities during the last quarter of the twentieth century Miller offers a detailed study of their character scope and evolution Between 1975 and 2000 the American communal experience evolved dramatically in response to social and environmental challenges that confronted American society as a whole Long accepted social norms and institutions family religion medicine and politics were questioned as the divorce rate increased interest in spiritual teachings from Asia grew and alternative medicine gained ground Cohousing flourished as a response to an increasing sense of alienation and a need to balance community and private lives At the same time Americans became increasingly concerned with environmental protection and preservation of our limited resources In the face of these social changes communal living flourished as people sought out communities of like minded individuals to pursue a higher purpose Organized topically each chapter in the volume provides basic information about various types of communities and detailed examples of each type from ecovillages and radical Christian communities to pagan communes and cohousing experiments Miller also takes a step back to look at the prevalence of communal living in American life over the twentieth century Based on exhaustive research Miller s final volume provides an indispensable survey and guide to understanding utopianism s enduring presence in American culture **Alienation and Charisma** Benjamin David Zablocki,1980 The 60s

Communes Timothy Miller,2015-02-01 The greatest wave of communal living in American history crested in the tumultuous 1960s era including the early 1970s To the fascination and amusement of more decorous citizens hundreds of thousands of mostly young dreamers set out to build a new culture apart from the established society Widely believed by the larger public to be sinks of drug ridden sexual immorality the communes both intrigued and repelled the American people The intentional communities of the 1960s era were far more diverse than the stereotype of the hippie commune would suggest A great many of them were religious in basis stressing spiritual seeking and disciplined lifestyles Others were founded on secular visions of a better society Hundreds of them became so stable that they survive today This book surveys the broad sweep of this great social yearning from the first portents of a new type of communitarianism in the early 1960s through the waning of the movement in the mid 1970s Based on more than five hundred interviews conducted for the 60s Communes Project among other sources it preserves a colorful and vigorous episode in American history The book includes an extensive directory of active and non active communes complete with dates of origin and dissolution Families and Communes William

Smith,1999-08-27 What is life like in contemporary American communes How do families fit into communal life What are communal families and what impact do families have on how communes are run and how they develop As the only contemporary exploration of communal families this book investigates the assumptions that scholars and others have made regarding the status of the family within communes and debunks current myths about communes and communal families While some groups are predisposed to families other communal groups become replacements or substitutes for the nuclear family William L Smith investigates a variety of practices including monogamy polygamy pantagamy and celibacy as implemented by intentional communities in dealing with family life Drawing on the history of communes in the United States Smith discusses various communal groups such as the Shakers the Mormons the Oneida Community the Amana Colonies as well as contemporary rural and urban communal groups such as Twin Oaks Jesus People USA and the Hutterites Families and Communes provides students and researchers with an intriguing study of a unique social group that is often overlooked

The Cambridge Companion to Modern American Culture C. W. E. Bigsby,2006-10-12 Publisher description [Manhood Development in Urban African-American Communities](#) Robert J Jagers,Roderick J Watts,2018-10-24 One of the first books to unite practice research and theory in addressing manhood development Manhood Development in Urban African American Communities aids in the construction of more holistic and progressive notions of African American manhood Proceeding from a psychological perspective this text explores issues of culture and race as they impact on the cognitive emotional and behavioral characteristics of African American boys and men You will see how the development of self esteem and self image in African American men are specifically affected by issues of gender race culture religion and oppression You will see how the development of self esteem and self image in African American men are specifically affected by issues of gender race culture religion The understanding of culture oppression and gender you ll gain from this book will enable you to promote the positive development of young men Manhood Development in Urban African American Communities covers theories research and intervention programs aimed at better understanding and addressing the challenges young African American men face in urban areas Psychologists sociologists social workers and all others interested in research on youth development will be captivated by the books explorations of the role of culture in the social development of African American youth cluster profiles of racial socialization beliefs giving special consideration to factors of spiritual religious coping extended family care cultural pride reinforcement and racial awareness oppression and sociopolitical development as a basis for interventions aimed at sociopolitical awareness and action findings from SQAKs Student Questionnaire on Academic Performance Cognitive Development and Social Knowledge completed by 100 participants of the RAAMUS Responsible African American Men United in Spirit Academy and their implications for future youth interventions a multi method study that explores the relationship between gender spirituality and spiritual well being and several indices of religiosity including religious participation and religious motivation a review of manhood and womanhood development in traditional African societies and

the connection with contemporary development. The themes of gender oppression, liberation, and culture found throughout *Manhood Development in Urban African American Communities* provide a broad scope for the inclusion of a wide range of perspectives and disciplines ranging from the psychological to the political. This broad perspective will bring to light the specific ways in which we need to change things to allow our young African American men living in urban areas to form healthy, positive images of themselves as individuals and as part of a greater society in which they often face grave challenges.

The Archaeology of Utopian and Intentional Communities Stacy C. Kozakavich, 2023-01-24. This volume describes and discusses historical archaeologists' contributions to our understanding of intentional communities throughout American history. Structured according to the scale of methodological focus from settlement patterns and landscape to the built environment to artifact studies, the case studies presented in this volume will give readers a thorough introduction to archaeological research to date in this field.

American Communities Kenneth R. Schneider, 2005. *American Communities* centers upon a critical missing dimension of modern progress: an organizational equivalent to the corporation. The concept rests upon unified, integrated, socially beneficial community living that is comparable to a cruise ship on the inside and opens to a spacious recreational environment like a country club on the outside. This new Community corporation serves its members who control its services and programs from health care and education to commerce and cultural programs. Its social spaces built around interior plazas and promenades offers efficient yet casual opportunities for community members to associate both freely and formally in a vast array of member behaviors. This community achieves a grand harmony of spaces and programs with closely yet spaciouly organized facilities serving most daily needs of its members. The compactly organized spaces are necessary to achieve human scale efficiency and casual interactions. The most critical principle is that urban spaciousness is possible only by compact development, what a city should be, which then immensely reduces the need for mechanized transport, especially the space consuming distance promoting and congestive nature of costly wasteful automobiles.

Communal Life Yosef Gorni, Ila'acov Oved, Idit WyEd Paz, 1987-01-01. This remarkable compendium brings together more than eighty scholars from throughout the world to examine the experience of the kibbutz and communal living. Through careful examination of the ideological, historical, educational, sociological, and economic origins and realities of communal living, the contributors provide strong and positive support for the belief that a cooperative society can exist within an antagonistic competitive system. Taken together, these contributions provide dialogue among and between those who research communal life and those who live it.

A Desire for Equality Michel Lallement, 2024-07-19. Since the late 1960s, individuals rebelling against societal norms have embraced intentional communities as a means to challenge capitalism and manifest their ideals. Combining archival work with an ethnographic approach, this book examines how these communities have implemented the utopias they claim to have in their daily lives. Focusing primarily on intentional communities in the United States who have adopted egalitarian principles of life and work, notably Twin Oaks in Virginia, the author examines the

lives and actions of members to further understand these concrete utopias In doing so the book demonstrates that intentional communities aren't relics of a bygone era but rather catalysts capable of shaping our future

New Religions and Spiritualities Stephen Hunt, 2017-03-02 Since the 1960s a fresh wave of new religions and what has come to be termed spiritualities have been evident on a global scale This volume in The Library of Essays on Sexuality and Religion focuses on these new religions and their often contentious attitudes towards human sexuality Part 1 through previously published articles provides instances of affirming orientations of the new religions towards sexuality This entails scrutinising examples of innovative religion from a historical perspective as well as those of a more contemporary nature Part 2 examines with pertinent illustrations the controversial character of new religions in their cultist forms and matters of sexual control and abuse Part 3 considers sexuality as articulated through paganism the occult and esotericism in the postmodern setting Part 4 examines both hetero and non hetero expressions of sexuality through the so called New Spiritualities Quasi religions and the more hidden forms of religiosity

Diane di Prima David Stephen Calonne, 2019-01-24 Diane di Prima Visionary Poetics and the Hidden Religions reveals how central di Prima was in the discovery articulation and dissemination of the major themes of the Beat and hippie countercultures from the fifties to the present Di Prima 1934 was at the center of literary artistic and musical culture in New York City She also was at the energetic fulcrum of the Beat movement and with Leroi Jones Amiri Baraka edited The Floating Bear 1961-69 a central publication of the period to which William S Burroughs Jack Kerouac Allen Ginsberg Charles Olson and Frank O'Hara contributed Di Prima was also a pioneer in her challenges to conventional assumptions regarding love sexuality marriage and the role of women David Stephen Calonne charts the life work of di Prima through close readings of her poetry prose and autobiographical writings exploring her thorough immersion in world spiritual traditions and how these studies informed both the form and content of her oeuvre Di Prima's engagement in what she would call the hidden religions can be divided into several phases her years at Swarthmore College and in New York her move to San Francisco and immersion in Zen her researches into the I Ching Paracelsus John Dee Heinrich Cornelius Agrippa alchemy Tarot and Kabbalah of the mid sixties and her later interest in Tibetan Buddhism Diane di Prima Visionary Poetics and the Hidden Religions is the first monograph devoted to a writer of genius whose prolific work is notable for its stylistic variety wit and humor struggle for social justice and philosophical depth

Contemporary American Women Writers Lois Parkinson Zamora, 2017-09-29 This collection brings together critical essays that examine questions of identity and community in the fiction of contemporary American women writers among them Alice Walker Toni Morrison and Sandra Cisneros The essays consider how identities and societies are dramatized in particular works of fiction and how these works reflect cultural communities outside the fictional frame often the communities in which their authors live and work The essays included here concern fictional representations of African American Latino Asian American Native American Anglo and Euro American communities and their working interactions in the multicultural United States Each critic asks in his or

her own way how a particular writer transforms her social grounding into language and literature The introduction includes an overview of the range of literary criticism devoted to contemporary American women writers and an extensive bibliography of complementary critical readings is provided to encourage further study Undergraduate and postgraduate students of contemporary literature will find the text an invaluable guide to contemporary women's writing in America and the range of criticism that this has given rise to

The Business of Marketing, Entrepreneurship, and Architecture of Communal Societies in the 1960s and 1970s Rahima Schwenkbeck, 2021-11-13 This book provides an in depth history of three US based communal societies that operated in the late 1960s and 1970s Soul City Stelle and Twin Oaks with an emphasis on their financing marketing and entrepreneurship processes These communities reflect the diversity of people who were dissatisfied with the direction in which American society was heading often underpinned by concerns over racism sexism the environment and capitalism and decided to take the radical step of joining a communal society A moral economy approach offers a lens on how these communities were prevented from fully realizing their visions due to the confines of capitalism as embedded in banking practices zoning laws and systemic racism

The Household Robert C. Ellickson, 2008 Based on extensive research in Sanskrit sources *Mathematics in India* chronicles the development of mathematical techniques and texts in South Asia from antiquity to the early modern period Kim Plofker reexamines the few facts about Indian mathematics that have become common knowledge such as the Indian origin of Arabic numerals and she sets them in a larger textual and cultural framework The book details aspects of the subject that have been largely passed over in the past including the relationships between Indian mathematics and astronomy and their cross fertilizations with
