policy but of a stumbling and spasmodic process France was the leading democratic nation in Europe and it wanted its art to reinforce its prestige on the international stage but no one could agree how best to achieve this Toby Norris shows how amidst the policy squabbles and in fighting of representative government France fumbled its way toward an art of democracy and in the process helped install modern art as the house style of democratic capitalism **Modernity and Nostalgia**

Romy Golan,1995-01-01 Golan argues that reactionary issues such as anti urbanism the return to the soil regionalism corporatism xenophobia and doubts about the new technology became central to cultural and art historical discourse Focusing on the overlap of avant garde and middle of the road production she investigates the import of these issues not only in painting sculpture and architecture concentrating on the work of Leger Picasso Le Corbusier Ozenfant Derain the Surrealists and the so called naifs but also in the decorative arts in the spectacle of world and colonial fairs and in literature Throughout she finds evidence that artists turned from the aesthetics of the machine age toward a more organic naturalistic art This leads her to ask whether the famous and momentous shift of the avant garde from Paris to New York in 1939 did not in fact begin two decades earlier in 1918 *The Oxford History of World Cinema* Geoffrey Nowell-Smith,1996 Featuring

Foreign Modernism

Ihor Junyk,2013-01-01 At the beginning of the twentieth century Paris was the cosmopolitan hub of Europe and home to a vast number of foreigners including the writers painters sculptors and musicians who were creating works now synonymous with modernism itself such as Les Femmes d'Alger (O.J. version) The Rite of Spring and Ulysses The situation at the end of the period however could not have been more different even before the violence of the Second World War the cosmopolitan avant garde had largely abandoned Paris driven out by nationalism xenophobia and intolerance Foreign Modernism investigates this tense and transitional moment for both modernism and European multiculturalism by looking at the role of foreigners in Paris s artistic scene Examining works of literature sculpture ballet and performing arts music and architecture Ihor Junyk combines cultural history with contemporary work in transnationalism and diaspora studies Junyk emphasizes how migr artists used radical new forms of art to resist the culture of virulent nationalism taking root in France and to articulate new forms of cosmopolitan identity
