Imagining the Modern City James Donald, 1999 Paris Berlin London Singapore New York Chicago Los Angeles these define the city in the world's consciousness James Donald takes us on a psychic journey to these places that have inspired artists writers architects and filmmakers for centuries Considering the cultural and political implications of the urban imaginary Donald explores the pleasures and challenges of modern living contending that the imagined city remains the best lens for a future of democratic community How can we think of Chicago without recalling the grittiness of *The Asphalt Jungle*'s back alleys or of London without the dank foggy atmosphere so often evoked by Dickens When de Certeau explores what it means to walk through a city or Foucault dissects the elements of the modern attitude what are they telling us about modernity itself Through a discussion of these and many other questions about urban thought Donald demonstrates how artists and social critics have seen the city as the locus not just of vanity squalor and injustice but also of civilized society's highest aspirations *Imagining the modern City* also looks at how artists have shaped cities through their creation of public spaces sculpture and architecture art forms that help determine our ideas about our place in the urban environment Planners and architects such as Otto Wagner Le Corbusier and Bernard Tschumi present us with real and possible cities showing a way forward to alternative social futures Donald asserts The modern city provides both a culturally resonant imagined space and a physical place for the everyday life of its residents *Imagining the Modern City* is a rich and dazzling exploration of the ways cities stir and shape our consciousness

Modern Architecture in Historic Cities Sebastian Loew, 2003-09-02 *Modern Architecture in Historic Cities* illustrates why France has been so successful in combining conservation and modernity and points to important lessons for other countries which can be drawn from the French experience Beginning with an empirical review of particular events which have affected attitudes towards heritage in France this book highlights the continuity in French thinking and the longstanding role of the French government as patron and leader Planning conservation and design control legislation are examined highlighting the range of instruments available to government in order to influence results and enhance the role of the architectural profession

Performance and the Contemporary City Nicolas Whybrow, 2020-05-15 Cities with their rising populations and complex configurations have become key symbols of a fast changing modernity This timely collection gathers together various urban writings from a range of relevant disciplines including architecture geography sociology visual art ethnography and psychoanalysis Its focus however is performance Underscoring the importance of the field it shows how performance functions as a dynamic interdisciplinary mechanism which is central not only to understanding the multiplicity of urban living but also to the way the identities of cities are shaped Gathering together key writings on the city and performance by authors ranging from Walter Benjamin to Tim Etchells to Carl Lavery the reader can be navigated in any number of ways Supported by extensive introductory material it will be essential and evocative reading for anyone interested in making connections between performance and urban life

The Mentally Retarded in Model Cities United States. President's Committee on Mental Retardation, 1969 Imagining New York City Christoph Lindner, 2015 Using examples from architecture film literature and the visual arts *Imagining New York City* considers how and why certain city spaces the skyline the sidewalk the slum and the subway have come to emblemize key aspects of the modern urban condition Hearings United States. Congress. House. Committee on Education, 1972 City Images Mary Ann Caws, 2013-11-26 First Published in 1991 Knowing any real city and still more so knowing what it is to know a city may be as much about passive as about active experience What we read in the field that field of the city in all its bizarre mixture of culture and nature is bound to determine to some non fictional extent what we know of it what we imagine it could be what we fear it may be or become These essays are meant to be albeit in their critical mode the recountings of knowing something through something else they are the projected imagination through reading of the reading by the self and or others a wide range of each of a city or cities as such of what city knowing or city thinking is The city as stage market and labyrinth variously trafficked and aestheticized dreamt and politicized as passionately written by authors from Cicero to Kazin from Wordsworth Dickens Whitman and Woolf to Williams Ashbery and Bonnefoy is the place the essays play themselves out through architecture and metaphor Cities and crisis Josef W. Konvitz, 2015-01-01 An ambitious global study of the state of cities in the early twenty first century their role in society and their contribution to the financial crisis **"The Urban Department Store in America, 1850-1930"** Louisa Iarocci, 2017-07-05 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Louisa Iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces The agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the United States to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct The Urban Department Store in America 1850-1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type Instead Iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants The Power of Myth Joseph Campbell, Bill Moyers, 2011-05-18 NATIONAL BESTSELLER An extraordinary book that reveals how the themes and symbols of ancient narratives continue to bring meaning to birth death love and war The Power of Myth launched an extraordinary resurgence of interest in Joseph Campbell and his work A preeminent scholar writer and teacher he has had a profound influence on millions of people including Star Wars creator George Lucas To Campbell mythology was the song of the universe the music of the spheres With Bill Moyers one of America's most prominent journalists as his thoughtful and

engaging interviewer The Power of Myth touches on subjects from modern marriage to virgin births from Jesus to John Lennon offering a brilliant combination of intelligence and wit From stories of the gods and goddesses of ancient Greece and Rome to traditions of Buddhism Hinduism and Christianity a broad array of themes are considered that together identify the universality of human experience across time and culture An impeccable match of interviewer and subject a timeless distillation of Campbell s work The Power of Myth continues to exert a profound influence on our culture **Domestic Engineering and the Journal of Mechanical Contracting** ,1916 What is a City? Philip E. Steinberg,Rob Shields,2008 The devastation brought upon New Orleans by Hurricane Katrina and the subsequent levee system failure has forced urban theorists to revisit the fundamental question of urban geography and planning What is a city Is it a place of memory embedded in architecture a location in regional and global networks or an arena wherein communities form and reproduce themselves Planners architects policymakers and geographers from across the political spectrum have weighed in on how best to respond to the destruction wrought by Hurricane Katrina The thirteen contributors to What Is a City are a diverse group from the disciplines of anthropology architecture geography philosophy planning public policy studies and sociology as well as community organizing They believe that these conversations about the fate of New Orleans are animated by assumptions and beliefs about the function of cities in general They unpack post Katrina discourse examining what expert and public responses tell us about current attitudes not just toward New Orleans but toward cities As volume coeditor Phil Steinberg points out in his introduction Even before the floodwaters had subsided scholars and planners were beginning to reflect on Hurricane Katrina and its disastrous aftermath and they were beginning to ask bigger questions with implications for cities as a whole The experience of catastrophe forces us to reconsider not only the material but the abstract and virtual qualities of cities It requires us to revisit how we think about plan for and live in them **The New Woman** Sally Ledger,1997 By comparing fictional representations with real New Women in late Victorian Britain Sally Ledger makes a major contribution to an understanding of the Woman Question at the end of the century Chapters on imperialism socialism sexual decadence and metropolitan life situate the revolting daughters of the Victorian age in a broader cultural context than previous studies **Handbook of Urban Studies** Ronan Paddison,2001 The Handbook of Urban Studies provides the first comprehensive up to date account of the urban condition relevant to a wide readership from academics to researchers and policymakers It provides a theoretically and empirically informed account embracing all the different disciplines contributing to urban studies Leading authors identify key issues and questions and future trends for further research and present their findings so that where appropriate they are relevant to the needs of policymakers Using the city as a unifying structure the Handbook provides an holistic appreciation of urban structure and change and of the theories by which we understand the structure development and changing character of cities How to See the World Nicholas Mirzoeff,2016-04-12 Every two minutes Americans alone take more photographs than were printed in the entire nineteenth century every minute people

from around the world upload over 300 hours of video to YouTube and in 2014 we took over one trillion photographs From the funny memes that we send to our friends to the disturbing photographs we see in the news we are consuming and producing images in quantities and ways that could never have been anticipated In the process we are producing a new worldview powered by changing demographics one where the majority of people are young urban and globally connected In How to See the World visual culture expert Nicholas Mirzoeff offers a sweeping look at history s most famous images from Velezquez s Las Meninas to the iconic Blue Marble to contextualize and make sense of today s visual world Drawing on art history sociology semiotics and everyday experience he teaches us how to close read everything from astronaut selfies to Impressionist self portraits from Hitchcock films to videos taken by drones Mirzoeff takes us on a journey through visual revolutions in the arts and sciences from new mapping techniques in the seventeenth century to new painting styles in the eighteenth and the creation of film photography and x rays in the nineteenth century In today s networked world mobile technology and social media enable us to exercise visual activism the practice of producing and circulating images to drive political and social change Whether we are looking at pictures showing the effects of climate change on natural and urban landscapes or an fMRI scan demonstrating neurological addiction Mirzoeff helps us to find meaning in what we see A powerful and accessible introduction to this new visual culture How to See the World reveals how images shape our lives how we can harness their power for good and why they matter to us all

Sinclair McKay, 2022-08-23 Sinclair McKay's portrait of Berlin from 1919 forward explores the city's broad human history from the end of the Great War to the Blockade rise of the Wall and beyond Sinclair McKay's Berlin begins by taking readers back to 1919 when the city emerged from the shadows of the Great War to become an extraordinary by word for modernity in art cinema architecture industry science and politics He traces the city's history through the rise of Hitler and the Battle for Berlin which ended in the final conquest of the city in 1945 It was a key moment in modern world history but beyond the global repercussions lay thousands of individual stories of agony From the countless women who endured nightmare ordeals at the hands of the Soviet soldiers to the teenage boys fitted with steel helmets too big for their heads and guns too big for their hands McKay thrusts readers into the human cataclysm that tore down the modernity of the streets and reduced what was once the most sophisticated city on earth to ruins Amid the destruction a collective instinct was also at work a determination to restore not just the rhythms of urban life but also its fierce creativity In Berlin today there is a growing and urgent recognition that the testimonies of the ordinary citizens from 1919 forward should be given more prominence That the housewives office clerks factory workers and exuberant teenagers who witnessed these years of terrifying and for some initially exhilarating transformation should be heard Today the exciting youthful Berlin we see is patterned with echoes that lean back into that terrible vortex In this new history of Berlin Sinclair McKay erases the lines between the generations of Berliners making their voices heard again to create a compelling living portrait of life in this city that lay at the center of the world **Heraklion Travel Guide** Daniel Windsor, 2025-06-22 Heraklion the capital city of Crete stands as a beautiful and vibrant testament to the rich history and culture of the island Located on the northern coast Heraklion is not just an administrative hub but also a bustling center of art commerce and tourism The city balances modern urban life with ancient heritage making it an attractive destination for travelers looking to experience the full spectrum of Greek life Whether you are exploring ancient ruins walking through Venetian era streets or relaxing at a seaside caf Heraklion offers a little something for everyone The history of Heraklion is as fascinating as the city itself Founded over three millennia ago it has seen the rise and fall of various civilizations from the Minoans to the Venetians and more recently its place within modern Greece The city's heritage is on full display in its architecture museums and the vibrancy of its local culture Heraklion is often seen as a gateway to Crete offering access to the rest of the island's treasures Whether you're an art lover a history buff or someone just looking to enjoy beautiful scenery and the Mediterranean climate Heraklion is a city that won't disappoint One of the most remarkable things about Heraklion is how it seamlessly integrates its ancient past with its modern present As you stroll through the narrow streets of the city's old town you'll encounter the remnants of Venetian fortresses Ottoman mosques and Minoan ruins all within close proximity to modern shops restaurants and cafes The city's main square Eleftherias Square is a perfect example of this mix of the old and the new Surrounded by historical buildings

and bustling commercial areas it provides a glimpse into the heart of Heraklion's daily life. Heraklion also boasts a wide array of cultural events, exhibitions, and festivals throughout the year, making it a lively place to visit at any time. From the local theater performances to the annual Heraklion Jazz Festival, there's always something going on to enjoy. As a city that draws thousands of visitors annually, Heraklion is accustomed to being a tourist hotspot, but it retains its authenticity with locals proud of their Cretan heritage and eager to share it with visitors. Whether you're in Heraklion for a short visit or a longer stay, the city welcomes everyone with open arms. The unique blend of history, culture, and modern amenities makes it a fascinating place to explore. With its stunning architecture, warm Mediterranean climate, and friendly atmosphere, Heraklion is not just the capital of Crete; it's the heart and soul of the island.

Stadtplanung, Regionalentwicklung und Informationsgesellschaft Manfred Schrenk, 2010 Re-Inventing the Postcolonial (in the) Metropolis Cecile Sandten, Annika Bauer, 2016-09-27

The notion of the postcolonial metropolis has gained prominence in the last two decades both within and beyond postcolonial studies. Disciplines such as sociology and urban studies, however, have tended to focus on the economic inequalities, class disparities, and other structural and formative aspects of the postcolonial metropolises that are specific to Western conceptions of the city at large. It is only recently that the depiction of postcolonial metropolises has been addressed in the writings of Suketu Mehta, Chris Abani, Amit Chaudhuri, Salman Rushdie, Aravind Adiga, Helon Habila, Sefi Atta, and Zakes Mda, among others. Most of these works probe the urban specifics and physical and cultural topographies of postcolonial cities while highlighting their agential capacity to defy, appropriate, and abrogate the superimposition of theories of Western modernity and urbanism. These ASNEL Papers are all concerned with the idea of the postcolonial in the metropolis from various disciplinary viewpoints as drawn from a great range of cityscapes spread out over five continents. The essays explore, on the one hand, ideas of spatial subdivision and inequality, political repression, social discrimination, economic exploitation, and cultural alienation; and on the other, the possibility of transforming, reinventing, and reconfiguring the postcolonial condition in and through literary texts and visual narratives. In this context, the volume covers a broad spectrum of theoretical and thematic approaches to postcolonial and metropolitan topographies and their depictions in writings from Australia and New Zealand, South Africa, South Asia, and greater Asia, as well as the UK, addressing issues such as modernity and market economies, but also caste, class, and social and linguistic aspects. At the same time, they reflect on the postcolonial metropolis and postcolonialism in the metropolis by concentrating on an urban imaginary which turns on notions of spatial subdivision and inequality, political repression, social discrimination, economic exploitation, and cultural alienation as the continuing postcolonial condition.
