Modern European Culture Consciousness:

Modern European Culture and Consciousness, 1870-1980 Paul Monaco, 1983-01-01 On both personal and public levels the past century has brought Western Europeans some of the most devastating episodes of human history Paul Monaco identifies the major modes of consciousness that Europeans have developed as ways of interpreting their experiences Europe appears to many Americans as an aging dowager with a grand past but little future Yet beyond the stereotype lies the complex reality The U S and the Soviet Union both failed to carry on the ideological and cultural traditions of the Western world to which they fell heir at the end of World War II By contrast Western Europe quickly recovered its cultural equilibrium Modern European Culture and Consciousness shows how Europe's amazing recovery took place Monaco argues that the sensibility now being forged in Europe will provide the guide to the twenty first century He illustrates this thesis by analysis of novels plays and especially motion pictures which have gradually supplanted novels

National Consciousness, History, and Political Culture in Early-modern Europe Orest A. Ranum, 1975 **America in European**

Consciousness, 1493-1750 Karen Ordahl Kupperman, 1995 For review see Stephen J Homick in The Hispanic Historical Review HAHR vol 77 no 1 February 1997 p 78 80 *The Routledge Handbook of Philosophy and Europe* Darian

Meacham, Nicolas de Warren, 2021-03-31 Understood historically culturally politically geographically or philosophically the idea of Europe and notion of European identity conjure up as much controversy as consensus The mapping of the relation between ideas of Europe and their philosophical articulation and contestation has never benefitted from clear boundaries and if it is to retain its relevance to the challenges now facing the world it must become an evolving conceptual landscape of critical reflection The Routledge Handbook of Philosophy and Europe provides an outstanding reference work for the exploration of Europe in its manifold conceptions narratives institutions and values Comprising twenty seven chapters by a group of international contributors the Handbook is divided into three parts Europe of the philosophers Concepts and controversies Debates and horizons Essential reading for students and researchers in philosophy politics and European studies the Handbook will also be of interest to those in related disciplines such as sociology religion and European history and history of ideas *Contemporary Ukraine on the Cultural Map of Europe* Larissa M. L. Zaleska Onyshkevych, Maria G. Rewakowicz, 2014-12-18 The concept of a return to Europe has been integral to the movement for Ukrainian national rebirth since the nineteenth century While the goal of a more fully reformed politics remains elusive numerous expressions of Ukrainian culture continue to develop in the European spirit This wide ranging book explores Ukraine's European cultural connection especially as it has been reestablished since the country achieved independence in 1991 The contributors discusses many aspects of Ukraine's contemporary culture history politics and religion in Part I literary culture in Part II and language popular culture and the arts in Part III What emerges is a fascinating picture of a young country grappling with its divided past and its colonial heritage yet asserting its voice and preferences amid the diverse and at times conflicting

realities of the contemporary political scene Europe becomes a powerful point of reference a measure against which the situation in post independence Ukraine is gouged and debated This framework allows for a better understanding of the complexities deeply ingrained in the social fabric of Ukrainian society *Borderology: Cross-disciplinary Insights from the Border Zone* Jan Selmer Methi, Andrei Sergeev, Małgorzata Bieńkowska, Basia Nikiforova, 2018-10-04 This book provides a unique and multifaceted view on and understanding of borders and their manifestations physical and mental cultural and geographical and as a question of life and death It highlights the Green Belt along the Iron Curtain which offered a haven for rare species for many decades and after the Cold War became a veritable treasure trove for a European network of researchers A geographical border is something that can be seen but other borders sometimes have to be crossed to be discovered The border zone is an arena for development that is not found in any other places This book focuses on borderology which became the name of a cross border study and research program that explores the border zone from multiple perspectives This cross disciplinary book will appeal to interested researchers and students from many fields from philosophy and diplomacy to ecology and geography **Nietzsche on Language, Consciousness, and the Body** Christian J. Emden, 2010-10-01 Nietzsche and the philosophy of language have been a well trafficked crossroads for a generation but almost always as a checkpoint for post modernism and its critics This work takes a historical approach to Nietzsche s work on language connecting it to his predecessors and contemporaries rather than his successors Though Nietzsche invited identification with Zarathustra the solitary wanderer ahead of his time for most of his career he directly engaged the intellectual currents and scientific debates of his time Emden situates Nietzsche s writings on language and rhetoric within their wider historical context He demonstrates that Nietzsche is not as radical in his thinking as has been often supposed and that a number of problems with Nietzsche disappear when Nietzsche s works are compared to works on the same subjects by writers of the 18th and 19th centuries Further the relevance of rhetoric and the history of rhetoric to philosophy and the history of philosophy is reasserted in consonance with Nietzsche s own statements and practices Important in this regard are the role of fictions descriptions and metaphor **British Consciousness and Identity** Brendan Bradshaw, Peter Roberts, 2003-12-18 The historical resonances of the concept of Britain for the communities of the Atlantic Archipelago in the early modern period are explored here in terms of the ideological demands made upon it Various and competing concepts of Britishness are examined from the Henrician legislation which united Wales with England and which created the kingdom of Ireland to the Act of Union of the realms of England and Scotland The chequered history of the consciousness of Britain as a polity which embraced the united kingdoms is discussed in relation to the distinctive national identities of the constituent countries and the question of the impact of Britain on English policy making under the Tudor Stuart and the first Hanoverian monarchs is addressed The puzzling resistance of the Irish to assimilation in contrast to the docility of the Welsh and eventually of the Scots is also explored *The Routledge Handbook of Material Culture in Early Modern Europe* Catherine

Worlds Apart? A Postcolonial Reading of post-1945 East-Central European Culture Cristina Sandru, 2013-01-16 This study explores the relation of the Eastern European problematic to postcolonial critical practice interrogating the extent to which postcolonialism can help illuminate instances of imperial domination in non Third World contexts It argues that colonisation is to be understood principally as a condition of ideological domination that has engendered similar forms of literary and cultural resistance consequently it offers a comparative framework which enables a reading in differential contexts of texts that ostensibly have little in common but which on close examination reveal a shared imaginative space rhetoric and narrative agency The book consists of two interrelated parts Part one is a critical discussion of the ideologies cultural imaginaries and representational practices articulated in a diverse range of representative postcolonial and post 1945 East Central European texts these are shown to share despite dissimilar conditions of production uncannily related narrative modes and thematic emphases Part two is a comparative literature case study which discusses two authors whose work is both highly representative of the cultural formations discussed in the first part Milan Kundera and Salman Rushdie and at the same time highly controversial The chapters dedicated to Kundera's and Rushdie's work examine the cultural geography of their novels particularly in the writers use of memory and story telling to reconfigure history and personal identity in
