Givón, 1994-05-30 This collection aims first to establish a structure independent language independent definition of pragmatic voice and more specifically then a universal functional definition of inverse The grammar and pragmatic function of the four major voice constructions direct active inverse passive antipassive are surveyed using narrative texts from 14 languages Koyukon Athabaskan Plains Cree Algonquian Chepang Tibeto Burman Squamish and Bella Coola Salish Sahaptin Sahaptian Kutenai isolate Surinam Carib Carib Spanish and Greek Indo European Korean Maasai Nilotic Cebuano and Karao Philippine The comparative quantified study of pragmatic voice functions tests the validity of a universal functional definition of voice and in particular of inverse The cross language comparison of grammatical structures that code the various voice functions then lays down the foundation for a non trivial cross language typology of inverse      *The Language of the Papyri* T. Calotychos, 2013-01-21 Following the fall of the Soviet Union in 1989 the borders hitherto separating Greek culture and society from its contiguous Balkan polities came down and Greeks had to reorient themselves toward their immediate neighbors and redefine their place within Europe and the new more fluid global order Projecting the political foresight and mustering the modernization policies to succeed in such an undertaking turned out to be no small feat

especially as the regional conflicts that had lain dormant during the Cold War were revived Synthesizing the cultural political and historical into a sophisticated interdisciplinary analysis this innovative study untangles the prolonged historical moment in which Greece and Europe were effectively held hostage to events in the Balkans just at the time when both hoped to serve as the region s welcoming hosts
