**Transnational Terrorism and State Accountability** Vincent-Joël Proulx, 2012-11-05 Every State has an obligation to prevent terrorist attacks emanating from its territory This proposition stems from various multilateral agreements and UN Security Council

resolutions This study exhaustively addresses the scope of this obligation of prevention and the legal consequences flowing from its violation so as to provide greater clarity on governments counterterrorism duties and to enhance State accountability for preventable wrongs It defines the contents and contours of the obligation while placing critical emphasis on the mechanics of State responsibility Whether obscured by new technologies like the Internet the sophisticated cellular structure of some terrorist organisations or convoluted political realities the level of governmental involvement in terrorist activities is no longer readily discernible in every instance Furthermore the prospect of governments waging surrogate warfare through proxies also poses intractable challenges to the mechanism of attribution in the context of State responsibility This monograph sets out the shortcomings of the extant scheme of State responsibility while identifying a paradigm shift towards more indirect modes of accountability under international law a trend corroborated by recent State and institutional practice Drawing on varied legal and theoretical influences the study devises and prescriptively argues for the implementation of a strict liability inspired model grounded in the logic of indirect responsibility with a view to enhancing State compliance with counterterrorism obligations This shifts the policy focus squarely to prevention while promoting multilateralism and transnational cooperation Ultimately the legal and policy sensibilities underlying the book converge into a new theory of prevention in counterterrorism contexts From the Foreword by Judge Bruno Simma International Court of Justice Even if one might disagree with the bases on which the author constructs his argument the execution of the argument is solid and thorough The coverage of the major policy arguments and the available legal source materials is equally impressive Moreover the author's positions are genuinely progressive and present a fairly innovative solution in the form of a strict liability mechanism It behoves all scholars and practitioners of international law with an interest in combating international terrorism to consider the proposals outlined in this book Transnational Terrorism and State Accountability by Vincent Jol Proulx has been awarded the 2014 Myres McDougal Prize for best book in Law Science and Policy from the Society of Policy Scientists

Keskitalo, Nigel Bankes, 2010-03-12 Climate change is affecting the Arctic environment and ecosystems at an accelerating speed twice the rate of the global average This is opening the Arctic to transportation and resource development and creating serious challenges for local communities and indigenous peoples

Climate Governance in the Arctic considers two aspects of climate change from an institutional perspective. It focuses on how relevant regimes, institutions, and governance systems support mitigation of climate change. It also examines the extent to which the varying governance arrangements in the Arctic support adaptation and the development of adaptation processes for the region. **A Cornerstone of Modern Diplomacy** Kai Bruns, 2014-06-19. The Vienna Convention on Diplomatic Relations (VCDR) was signed at the height of the Cold War more than fifty years ago. The agreement and its negotiation have become a cornerstone of diplomatic law. *A Cornerstone of Modern Diplomacy*, which is based on archival research in the National Archives (London), the Austrian State Archives (Vienna), and the Political Archive (Berlin), delivers the first study of the British policy during the negotiation of the key convention governing diplomatic privileges and immunities: the 1961 Vienna Convention on Diplomatic Relations. The book provides a complete commentary on the political aspects of the codification process of diplomatic law. By clearly presenting the case with accessible analysis, author Kai Bruns makes the relations between international law and politics understandable, stressing the impact of the emergence of the third world in UN diplomacy. This unique study is a crucial piece of scholarship shedding light on the practice of United Nations conference diplomacy and the codification of diplomatic law at the height of the Cold War.

**Crimes against Humanity** M. Cherif Bassiouni, 2011-04-25. This book traces the evolution of crimes against humanity (CAH) and their application from the end of World War I to the present day in terms of both historic legal analysis and subject matter content. The first part of the book addresses general issues pertaining to the categorization of CAH in normative, jurisprudential, and doctrinal terms. This is followed by an analysis of the specific contents of CAH, describing its historic phases: going through international criminal tribunals, mixed model tribunals, and the International Criminal Court. The book examines the general parts and defenses of the crime along with the history and jurisprudence of both international and national prosecutions. For the first time, a list of all countries that have enacted national legislation specifically directed at CAH is collected, along with all of the national prosecutions that have occurred under national legislation up to 2010.

**A Modern Chinese Journey to the West** Ulric Killian, 2006. This book begins and perhaps should end with an excerpt from the writings of the late eminent Chinese scholar Fung Yu-lan or Feng Youlan (1895-1990), who wrote: "The ancient Chinese culture is an inherent factor determining the Chinese style. If the latter enunciation of Fung Yu-lan stirs one's interest in Chinese culture for the typical reasons, such as an interest in ancient periods of China, romanticism, which focuses on the exotic and mysterious, for example, Zen Buddhism and Taoism, or simply as the source of exotic objects d'art, then all the better. Because for a typical Westerner bound in Western conventionalism and parochialism, engendering an understanding of the policies and practices of the People's Republic of China necessitates understanding a modern China in light of Chinese traditional culture, or philosophy, or a China in antiquity. The consequence of Chinese traditional culture affects many political economy concerns of modern China, ranging

from socio economic political to international trade and other concerns Indeed philosophical antecedents influence modern Chinese policies and practices      The English Legal System Alisdair Gillespie, Siobhan Weare, 2019 An engaging guide to the English legal system which helps students new to law develop a critical legal mind Presenting and critiquing the law in a lively style this text invites students to question analyse and evaluate      **China's Unequal Treaties** Dong Wang, 2005-01-01 China's Unequal Treaties offers a study based on primary sources of the linguistic development and polemical uses of the expression Unequal Treaties to refer to the treaties written between 1842 and 1943 Although the expression has occupied a central position in both Chinese collective memory and English historiographies China's Unequal Treaties is the first study of the phrase and its interpretations      **Places of Refuge** Eric Van Hooydonk, 2020-11-26 The need for specific legal arrangements governing ships in distress and places of refuge is one of the most topical problems in both public and private maritime law The headline grabbing shipping disasters involving the loss of the Erika 1999 and the Prestige 2002 attracted the attention of the IMO the Comité Maritime International the European Union national maritime authorities around the globe and the maritime industry in general Ultimately the impact of pollution on local economies and the environment was enough to arouse the concern of a broad swathe of public opinion Places of Refuge provides clarity on The scope of the right of access The conditions under which coastal authorities may deny access The liability of authorities granting or denying access The basis and the conditions of financial securities The obligation to establish contingency plans
