Modern Poet Poetry Academia And Knowledge Since The 1750s:

The Modern Poet Robert Crawford, 2001-08-09 Addressed to all readers of poetry this is a wide ranging book about the poet's role throughout the last three centuries. It argues that a conception of the poets as both primitive and sophisticated emerged in the 1750s. Encouraged by the classroom when English literary works began to be studied in universities, this view continues to shape our own attitudes towards verse. Whether considering Ossian and the Romantics, Victorian scholar gypsies, Modernist poetries of knowledge, or contemporary poetry in Britain, Ireland, and America, *The Modern Poet* shows how many successive generations of poets have needed to collaborate and to battle with academia. *The Modern Poet* Robert Crawford, 2001

Epic Herbert F. Tucker, 2012-11-29 Literary history has conventionally viewed Milton as the last real practitioner of the epic in English verse. Herbert Tucker's spirited book shows that the British tradition of epic poetry was unbroken from the French Revolution to World War I. **Robert Fergusson and the Scottish Periodical Press** Rhona Brown, 2016-04-08 Though Robert Fergusson published only one collection of poems during his lifetime, he was a fixture in the Scottish periodical press. Rhona Brown explores Fergusson's poetic output in its immediate periodical context, enabling a new understanding of Fergusson's contribution to poetry that also enlarges on our understanding of the Scottish periodical press. Focusing on the development of his career in Walter Ruddiman's *Weekly Magazine*, Brown situates Fergusson's poetry alongside contemporary events that expose Fergusson's preoccupations with the frivolities of fashion, theatrical culture, the economic status of Scottish manufacture, and politics. At the same time, Brown offers fascinating insights into the political climate of Enlightenment Scotland and shows the *Weekly Magazine* in relationship to the larger Scottish and British periodical milieu. She concludes by exploring reactions to Fergusson's death in the British periodical presses, arguing that, contrary to critical consensus, the poet's death was ignored neither by his own country nor by the larger literary community.

Written on the Water Samuel Baker, 2010-07-08 The very word culture has traditionally evoked the land. But when such writers as William Wordsworth, Samuel Taylor Coleridge, Lord Byron, and later Matthew Arnold developed what would become the idea of modern culture, they modeled that idea on Britain's imperial command of the sea. Instead of locating the culture idea's beginnings in the dynamic between the country and the city, Samuel Baker insists on taking into account the significance of water for that idea's development. For the Romantics, figures of the island, the deluge, and the sundering tide often convey the insularity of cultures understood to stand apart from the whole. Yet Baker writes the sea also stands in their poetry of culture as a reminder of the broader sphere of circulation in which the poet's work, if not the poet's subject, inheres. Although other books treat the history of the idea of culture, none synthesizes that history with the literary history of maritime empire. *Written on the Water* tracks an uncanny interrelationship between ocean imagery and culturalist rhetoric of culture forward from the late Augustans to the mid Victorians. In so doing, it analyzes Wordsworth's pronounced ambivalence toward the sea, Coleridge's sojourn as an imperial functionary in Malta, Byron's cosmopolitan seafaring tales, and Arnold's

dual identity as poet of water and prose arbiter of culture It also considers Romanticism's classical inheritance arguing that the Lake Poets dissolved into the idea of culture the Virgilian system of pastoral georgic and epic modes of literature and life This compelling new study will engage any reader interested in the intellectual and literary history of Britain and the lived experience of British Romanticism *Philip Larkin* J. Booth, 2005-08-10 James Booth reads Philip Larkin's mature poetry in terms of his ambiguous self image as lonely anti social outsider plighted to his art and as nine to five librarian sharing the common plight of humanity Booth's focus is on Larkin's artistry with words the verbal devices through which this purest of lyric poets celebrates the experience The beauty Featuring discussion for the first time of two recently discovered poems by Larkin this original and exciting new study will be of interest to all students scholars and enthusiasts of Larkin *Folklore and the Fantastic in Nineteenth-Century British Fiction* Jason Marc Harris, 2016-04-15 Jason Marc Harris's ambitious book argues that the tensions between folk metaphysics and Enlightenment values produce the literary fantastic Demonstrating that a negotiation with folklore was central to the canon of British literature he explicates the complicated rhetoric associated with folkloric fiction His analysis includes a wide range of writers including James Barrie William Carleton Charles Dickens George Eliot Sheridan Le Fanu Neil Gunn George MacDonald William Sharp Robert Louis Stevenson and James Hogg These authors Harris suggests used folklore to articulate profound cultural ambivalence towards issues of class domesticity education gender imperialism nationalism race politics religion and metaphysics Harris's analysis of the function of folk metaphysics in nineteenth and early twentieth century narratives reveals the ideological agendas of the appropriation of folklore and the artistic potential of superstition in both folkloric and literary contexts of the supernatural **Science in Modern Poetry** John Holmes, 2012-01-01 Over the last thirty years more and more critics and scholars have come to recognize the significant influence of science on literature This collection of essays focuses specifically on what poets in the twentieth and twenty first centuries have made of modern scientific developments In these twelve essays leading experts on modern poetry literature and science explore how poets have used scientific language in their poems how poetry can offer new perspectives on science and how the two cultures can and have come together in the work of poets from Britain Ireland America and Australia **Literature in the First Media Age** David Trotter, 2013-12-16 The period between the World Wars was one of the richest and most inventive in the long history of British literature Interwar literature stood apart by virtue of the sheer intelligence of the enquiries it undertook into the technological mediation of experience After around 1925 literary works began to examine the sorts of behavior made possible for the first time by virtual interaction And they began to fill up too with the look sound smell taste and feel of the new synthetic and semi synthetic materials that were reshaping everyday modern life New media and new materials gave writers a fresh opportunity to reimagine both how lives might be lived and how literature might be written Today such material and immaterial mediations have become even more decisive Communications technology is an attitude before it is a machine or a set of codes It is an idea about the prosthetic

enhancement of our capacity to communicate The writers who first woke up to this fact were not postwar postmodern or post anything else some of the best of them lived and wrote in the British Isles in the period between the World Wars

Modernism and Colonialism Richard Begam, Michael Moses, 2007-10-15 The essays in *Modernism and Colonialism* offer revisionary accounts of major British and Irish literary modernists relation to colonialism **The Cambridge Companion to American Poetry since 1945** Jennifer Ashton, 2013-02-08 The extent to which American poetry reinvented itself after World War II is a testament to the changing social political and economic landscape of twentieth century American life Registering an important shift in the way scholars contextualize modern and contemporary American literature this Companion explores how American poetry has documented and at times helped propel the literary and cultural revolutions of the past sixty five years This Companion sheds new light on the Beat Black Arts and other movements while examining institutions that govern poetic practice in the United States today The text also introduces seminal figures like Sylvia Plath John Ashbery and Gwendolyn Brooks while situating them alongside phenomena such as the academic poet and popular forms such as spoken word and rap revealing the breadth of their shared history Students scholars and readers will find this Companion an indispensable guide to post war and late twentieth century American poetry **Cybernetic Aesthetics** Heather A. Love, 2023-09-28 *Cybernetic Aesthetics* draws from cybernetics theory and terminology to interpret the communication structures and reading strategies that modernist text cultivate In doing so Heather A Love shows how cybernetic approaches to communication emerged long before World War II they flourished in the literature of modernism s most innovative authors This book engages a range of literary authors including Ezra Pound John Dos Passos Gertrude Stein Virginia Woolf and James Joyce and cybernetics theorists such as Norbert Wiener Claude Shannon Ross Ashby Silvan Tomkins Margaret Mead Gregory Bateson and Mary Catherine Bateson Through comparative analysis Love uncovers cybernetics relevance to modernism and articulates modernism s role in shaping the cultural conditions that produced not merely technological cybernetics but also the more diffuse notion of cybernetic thinking that still exerts its influence today

Whitman, Melville, Crane, and the Labors of American Poetry Peter Riley, 2019-05-23 In *Whitman Melville Crane and the Labors of American Poetry* Peter Riley confronts our enduring and problematic investment in poetic vocation a myth he argues that continues to inform how all our multifarious labors are understood valued and exploited The book seeks to challenge a dominant cultural logic that frames contingent non vocational labor as a necessary sacrifice that frustrates the righteous progress towards realizing that seemingly purest of callings Poet Incorporating the often overlooked or excluded workaday ephemera of three canonical US Romantic poets Walt Whitman Herman Melville and Hart Crane this volume offers new archival insights that call for a re examination of celebrated literary careers and disputes their status as renowned or tragic icons of creative vocation The poetry of Whitman the real estate dealer Melville the customs inspector and Crane the copywriter Riley contends does not constitute the formal inscription of an antagonistic or discreet poetic labor struggling

against quotidian work towards the fulfilment of exceptional individual callings. Instead, the distracted forms of their poetry are always already intermingled with a variety of apparently lesser labors. Ousting poetic production from its default sanctuary of privileged exemption or transcendent repose, the volume refigures the work of the poet as a living sensuous activity that transgresses labor's various divisions and hierarchies. It consequently recasts the poet as a figure who actually unfastens the right of passage vocational logic that does so much to secure and reproduce the current neoliberal paradigm.

Sounding Imperial James Mulholland, 2013-07-30 Spoken words come alive in written verse. In *Sounding Imperial* James Mulholland offers a new assessment of the origins, evolution, and importance of poetic voice in the eighteenth and early nineteenth centuries. By examining a series of literary experiments in which authors imitated oral voices and impersonated foreign speakers, Mulholland uncovers an innovative global aesthetics of poetic voice that arose as authors invented new ways of crafting textual voices and appealing to readers. As poets drew on cultural forms from around Great Britain and across the globe, impersonating primitive speakers and reviving ancient oral performances or fictionalizing them in verse, they invigorated English poetry. Mulholland situates these experiments with oral voices and foreign speakers within the wider context of British nationalism at home and colonial expansion overseas. *Sounding Imperial* traces this global aesthetic by reading texts from canonical authors like Thomas Gray, James Macpherson, and Felicia Hemans, together with lesser-known writers like Welsh antiquarians, Anglo-Indian poets of colonialism, and impersonators of Pacific islanders. The frenetic borrowing, movement, and adaptation of verse of this time offers a powerful analytic by which scholars can understand anew poetry's role in the formation of national culture and the exercise of colonial power. *Sounding Imperial* offers a more nuanced sense of poetry's unseen role in larger historical processes, emphasizing not just appropriation or collusion but the murky middle range in which most British authors operated during their colonial encounters and the voices that they used to make those cross-cultural encounters seem vivid and alive.

Samuel Johnson, the Ossian Fraud, and the Celtic Revival in Great Britain and Ireland Thomas M. Curley, 2009-04-16 A detailed investigation of Johnson's response to the Ossian controversy with a transcription of a rare anti-Ossian pamphlet he co-authored.

Strange Likeness Chris Jones, 2010-10-14 *Strange Likeness* provides the first full account of how Old English or Anglo-Saxon was rediscovered by twentieth-century poets and the uses to which they put that discovery in their own writing. Chapters deal with Ezra Pound, W. H. Auden, Edwin Morgan, and Seamus Heaney. Stylistic debts to Old English are examined along with the effects on these poets' work of specific ideas about Old English language and literature as taught while these poets were studying the subject at university. Issues such as linguistic primitivism, the supposed purity of the English language, the politics and ethics of translation, and the construction of Englishness within the literary canon are discussed in the light of these poets and their Old English encounters. Heaney's translation of *Beowulf* is fully contextualized within the body of the rest of his work for the first time.
