Proclaim The Wonder Engaging Science On Sunday:

Proclaim the Wonder Scott Hoezee, 2019-07-11 Does the rise of science imply the decline of faith Should preachers protect their flocks from the inroads of scientific naturalism Or is an informed scientific view of the universe compatible with Christian belief even a strong source of support for it This world belongs to God and the pulpit is a crucial vehicle for celebrating science's contribution to the understanding of creation Beginning with a defense of the authority of Scripture Scott Hoezee distinguishes between science as a physical field of inquiry and scientific naturalism which often turns science into an atheistic religious or philosophical point of view After establishing the fact that there is no necessary clash between theology and science Hoezee summarizes some of the more recent discoveries in the fields of physics and cosmology as well as current ideas about the biological and mental nature of human beings He highlights intriguing scientific facts and points to the theological interpretations that can be drawn from them Proclaim the Wonder offers specific suggestions and strategies for integrating science into preaching and provides sample sermons based on key biblical texts **Wonder** Scott Hoezee, 2003 Unique resource shows preachers how to reference the exciting advancements in science to reveal the handiwork of our Creator Creation and Doxology Gerald L. Hiestand, Todd Wilson, 2018-10-23 What does it mean to both affirm the goodness of God's creation and anticipate the new creation Bringing together contributions from church leaders academic theologians and scientists on the doctrine of creation this volume engages with Scripture scientific theory church history and current issues to help Christians understand the beginning and ending of God's good creation

Faith and Science in the 21st Century Peter M. Wallace,2018-08-17 With contributions from eight noted theologians this book builds on popular videos from the Day 1 radio Science or faith The battle rages from millennials and GenXers questioning the relevance of religion to older adults who doubt the validity of science and vice versa but these two are not mutually exclusive They can in fact be mutually enriching and complimentary once their proper domains are understood and respected The Episcopal Church with its tradition of the via media offers an ideal setting for conversations seeking to bridge the often antagonistic perspectives on both sides Faith and Science in the 21st Century presents a way to start that conversation Built on existing videos produced by the popular Day 1 program with assistance from a John Templeton Foundation grant this series features notable faith leaders across the denominational spectrum in 3 to 5 minute video presentations on scientific topics in which they are experts Intended for use in a variety of settings including congregations schools and campus ministries it can be presented as an eight session series of studies but each session can also stand on its own for a one time formation offering A single video download will offer all video presentations This Leader Guide enables facilitators to foster fruitful discussions of each session topic It includes an introduction about the program and how it can be used and eight detailed session plans to utilize with a downloadable video sold separately on the Day 1 website Primal Mark Batterson, 2010-11-02 Our generation needs a reformation But a single person won t lead it A single event won t define

it Our reformation will be a movement of reformers living creatively compassionately courageously for the cause of Christ This reformation will not be born of a new discovery It will be the rediscovery of something old something ancient Something primal Mark Batterson Primal What would your Christianity look like if it was stripped down to the simplest rawest purest faith possible You would have more not less You would have the beginning of a new reformation in your generation your church your own soul You would have primal Christianity This book is an invitation to become part of a reformation movement It is an invitation to rediscover the compassion wonder curiosity and energy that turned the world upside down two thousand years ago It is an invitation to be astonished again Calvinism for a Secular Age Jessica R. Joustra, Robert J. Joustra, 2022-02-08 Pastor politician and Dutch Neo Calvinist theologian Abraham Kuyper's lectures on the role of Christian faith in politics science and art have become a touchstone of contemporary Reformed theology Revisiting these lectures Jessica and Robert Joustra bring together theologians historians scientists and others to consider Kuyper's ongoing importance and complex legacy for today Reading for Preaching Cornelius Plantinga, Jr., 2013-11-30 In Reading for Preaching Cornelius Plantinga makes a striking claim preachers who read widely will most likely become better preachers Planting himself a master preacher shows how a wide reading program can benefit preachers First he says good reading generates delight and the preacher who enters the world of delight goes with God Good reading can also help tune the preacher's ear for language his or her primary tool General reading can enlarge the preacher's sympathies for people and situations that she or he had previously known nothing about And above all the preacher who reads widely has the chance to become wise This beautifully written book will benefit not just preachers but anyone interested in the wisdom to be derived from reading Works that Plantinga interacts with in the book include The Kite Runner by Khaled Hosseini Enrique s Journey by Sonia Nazario Silence by Shusaku Endo How Much Land Does a Man Need by Leo Tolstoy Narcissus Leaves the Pool by Joseph Epstein Les Miserables by Victor Hugo and many more Creation Research Society Quarterly Creation Research John Calvin and the Natural World Davis A.
