Proclaiming The Prolife Message Christian Leaders Address The Abortion Issue:

Proclaiming the Pro-life Message, 1997 *Abortion-- Murder Or Mercy?* François B. Gérard, 2001 This book is meant to provide an overview of and gather the literature on abortion one of the most divisive issues of our times Honest women and men the world over must deal with this issue in their hearts and minds whether or not they ever face the issue personally It is hard to conceive of a single thinking person who doesn't have an opinion on abortion usually strongly held The arguments are cogent on both sides of the issue We hope that this collection will bring to the attention of readers the publications which shed light on the fundamental issues involved Secular Faith Mark A. Smith, 2015-09-11 When Pope Francis recently answered Who am I to judge when asked about homosexuality he ushered in a new era for the Catholic church A decade ago it would have been unthinkable for a pope to express tolerance for homosexuality Yet shifts of this kind are actually common in the history of Christian groups Within the United States Christian leaders have regularly revised their teachings to match the beliefs and opinions gaining support among their members and larger society Mark A Smith provocatively argues that religion is not nearly the unchanging conservative influence in American politics that we have come to think it is In fact in the long run religion is best understood as responding to changing political and cultural values rather than shaping them Smith makes his case by charting five contentious issues in America's history slavery divorce homosexuality abortion and women's rights For each he shows how the political views of even the most conservative Christians evolved in the same direction as the rest of society perhaps not as swiftly but always on the same arc During periods of cultural transition Christian leaders do resist prevailing values and behaviors but those same leaders inevitably acquiesce often by reinterpreting the Bible if their positions become no longer tenable Secular ideas and influences thereby shape the ways Christians read and interpret their scriptures So powerful are the cultural and societal norms surrounding us that Christians in America today hold more in common morally and politically with their atheist neighbors than with the Christians of earlier centuries In fact the strongest predictors of people's moral beliefs are not their religious commitments or lack thereof but rather when and where they were born A thoroughly researched and ultimately hopeful book on the prospects for political harmony Secular Faith demonstrates how over the long run boundaries of secular and religious cultures converge **Presidential Campaign Rhetoric in an Age of Confessional Politics** Brian T. Kaylor, 2010-12-28 When a Bible quoting Sunday School teacher Jimmy Carter won the 1976 presidential election it marked the start of a new era of presidential campaign discourse The successful candidates since then have followed Carter's lead in publicly testifying about their personal religious beliefs and invoking God to justify their public policy positions and their political visions With this new confessional political style the candidates have repudiated the former perspective of a civil religious contract that kept political leaders from being too religious and religious leaders from being too political Presidential Campaign Rhetoric in the Age of Confessional Politics analyzes the religious political discourse used by presidential nominees from 1976 2008

and then describes key characteristics of their confessional rhetoric that represent a substantial shift from the tenets of the civil religious contract This new confessional political style is characterized by religious political rhetoric that is testimonial partisan sectarian and liturgical in nature In order to understand why candidates have radically adjusted their God talk on the campaign trail important religious political shifts in American society since the 1950s are examined which demonstrate the rhetorical demands evangelical religious leaders have placed upon our would be national leaders Brian T Kaylor utilizes Michel Foucault s work on the confession with theoretical adjustments to critique the significant problems of the confessional political era With clear analyses and unsettling relevance Kaylor s critique of contemporary political discourse will rouse the interest and concern of engaged citizens everywhere *The Pro-Life Pregnancy Help Movement* Laura S.

Hussey,2020-02-03 There is more to the pro life movement than campaigning against abortion That at least is the logic behind a large and growing network of pro life pregnancy centers offering help to pregnant women As these centers face increasing scrutiny this book offers the first social scientific study of the pro life pregnancy help movement The work being performed at pro life pregnancy centers maternity homes and other charitable agencies is Laura S Hussey suggests distinguished by several strategic features it is directed at non state targets operates in largely privatized venues employs service provision as its primary tactic and aims to address causes popularly associated with its countermovement such as women s including poor women s wellbeing and empowerment The motives and nature of the services such pregnancy centers deliver have become the subjects of competing political narratives but until now very little empirical research A rich mixed method study including data from two original national surveys and extensive interviews Hussey s book adjudicates these opposing views even as it provides a measured look at the identity work history and impact of pro life pregnancy centers and related service providers as well as their relations with the larger American antiabortion movement To what extent is pro life pregnancy help work primarily geared to serving women versus saving babies Pursued in these pages the answer has broad implications for the wider study of social action and the pro life movement and for the future of the American abortion conflict *Pro-Life Pulpit* Stephen Tu,2011-05-23 Over one million unborn children are intentionally aborted every year in North America Voiceless and helpless their blood cries out Will those of us who serve as pastors and preachers respond from our pulpits Silence is not an option We cannot keep quiet while thousands of our neighbors made in the image of God are being led to the slaughter every day But neither should we condemn and vilify those who are complicit in their deaths A truly pro life pulpit ministry opposes the injustice of abortion with truth courage and understanding Tears mingled with hope overflowing with grace After all the Christian faith is rooted in the good news of a Messiah who was once an embryo Nine months before he was born Jesus was conceived by the Holy Spirit and for the next forty weeks he lived and grew in the womb of an unwed teenaged mother He is at the heart of our preaching and this book will show you how to confront the sin of abortion by proclaiming the God who became abortable in order to save sinners [Subject Guide to](#)
