Issues Around Aligning Theory, Research and Practice in Social Work Education Allucia L. Shokane,Jabulani C. Makhubele,Lisa V. Blitz,2018-12-01 Issues Around Aligning Theory Research and Practice in Social Work Education provides a reflection on social work education with a slant towards an Afrocentric approach aiming to facilitate strong reflective thinking and to address local realities about social work education on the African continent as well as in broader global contexts This volume focuses on issues around aligning theory research and practice in social work education A significant contribution is made here to the scholarly understanding of opportunities to sustain the academic discourse on social work education Social work as a profession and a social science discipline is dynamic and it ought to meet the challenges of the realities of the societies in which it serves given the history of the changing society of South Africa from apartheid to democracy Over the years social work education and training has undergone tremendous curricular changes with the enactment of the White Paper for Social Welfare and the national review respectively by the South African Council for Social Services Professions SACSSP and the Council on Higher Education CHE for the re accreditation of all Bachelor of Social Work BSW programmes in South Africa fulfilling the prescripts of the Higher Education Act No 101 of 1997 as amended and Social Service Professions Act No 110 of 1978 It is worth mentioning that the curricular changes will also continue with the

current reviewing of Social Service Professions Act No 110 of 1978 as amended which is underway in South Africa This book is really ground breaking The Afrocentric perspective on social work practice contributes to the current discourse on decolonisation of social work teaching and practice From a methodological perspective the book is premised on multi inter and trans disciplining in social sciences It covers aspects of social work education and practice through research narrative qualitative African methodology secondary data analysis etc engendering values and ethics report writing supervision in fieldwork as well as exchange programmes and international service learning addressing a number of concepts such as cultural competency cultural awareness and sensitivity are addressed *Generalist Social Work Practice* Janice Gasker,2018-11-06 Generalist Social Work Practice provides students with the foundational skills and knowledge needed to serve clients across micro mezzo and macro areas of practice Author Janice Gasker brings a focus on self reflection as the first stage in the planned change process and writes with the perspective that we consider work at all levels of practice simultaneously rather than in isolation In accordance with the 2015 Educational Policy and Accreditation Standards EPAS set forth by the Council of Social Work Education CSWE the planned change process is presented as dynamic and interactive providing students with a clear understanding of how each stage of the planned change process can be utilized at any point when serving a client system The text spotlights the distinctive characteristics of the worker their values attitudes and experiences that may influence client interaction The text also includes case studies collaborative learning exercises and critical thinking questions to help students apply concepts to practice The Practical Encyclopedia of Racial Equity in the Workplace Ann Curry-Stevens,Amilah Baksh, The Practical Encyclopedia of Racial Equity in the Workplace provides tools necessary to integrate racial equity into the fiber and culture of the workplace reducing racial disparities between the experiences of racialized and white staff and service users Written in clear plain language and based on over 30 years of research and practice advancing racial equity the hands on resources allow an organization to Create a racial equity action plan Build inclusive leadership Assess and address organizational climate culture and composition Determine service user satisfaction and involvement opportunities Identify and evaluate racial equity data and metrics Organization leaders equity team members and consultants can choose from different resources and customize them to suit whatever the stage of their equity journey This book is a comprehensive and modifiable reference work that can be used again and again **Bulletin - Holmes Safety Association** Holmes Safety Association,1993 The Deming Route to Quality and Productivity William W. Scherkenbach,1986 This book is a collection of the author s observations ideas and interpretations of Dr Deming s philosophy *Intercultural Postgraduate Supervision* Catherine Manathunga,2014-06-27 The impact of globalisation and aggressive marketing by universities has increased the flow of international or culturally diverse students enrolling in postgraduate research degree programs outside their own countries As access to postgraduate education widens more local culturally diverse and Indigenous students are also enrolling in higher degree studies As a result significantly more academics now

engage in intercultural supervision or supervising students who are culturally different to themselves This book argues that empowering intercultural supervision can result from more nuanced critical and theoretically based understandings of time place and knowledge It shows how a range of Southern theories including postcolonial Indigenous feminist social and cultural geography theories about history geography and knowledge can offer fresh insights into intercultural supervision The author suggests that by using the conceptual tools offered by these Southern theories the more complex but potentially rich aspects of intercultural supervision can be better understood and grappled with In particular these theories enable us to challenge assumptions about the universality and timelessness of Northern knowledge and to create space for the recovery and further development of Southern Eastern and Indigenous knowledges within intercultural supervision This book will be of value to academic supervisors and postgraduate students especially those engaged in intercultural supervision as well as researchers and scholars in the field of higher education Air Force Manual United States.
