Forbes, Syed M. Ahmed, 2010-10-13 During the past several decades the manufacturing and service industries significantly increased their levels of productivity quality and profitability through the application of process improvement techniques and information technology Unfortunately the construction industry lags far behind in the application of performance improvement and optimization techniques as well as its overall competitiveness Written by Lincoln H Forbes and Syed M Ahmed both highly regarded for leadership and innovation **Modern Construction Lean Project Delivery and Integrated Practices** offers cutting edge lean tools and other productive strategies for the management of people and processes in the construction industry Drs Forbes and Ahmed focus mainly on lean construction methodologies such as The Last Planner R System The Lean Project Delivery System TM and Integrated Project Delivery TM The tools and strategies offered draw on the success of the world renowned Toyota Production System TPS adapted to the construction environment by construction professionals and researchers involved in developing and advocating lean construction methods The book also discusses why true lean construction can best occur when all the construction stakeholders owners designers constructors and material suppliers are committed to the concept of optimizing the flow of activities holistically while de emphasizing their self interest The authors also reintroduce process improvement approaches such as TQM and Six Sigma as a foundation for the adoption of lean methodologies and demonstrate how these methods can improve projects in a so called traditional environment The book integrates these methods with emerging interest in green construction and the use of information technology and Building Information Modeling BIM while recognizing the human element in relation to motivation safety and environmental stresses Written specifically for professionals in an industry that desperately needs to play catch up the book delineates cutting edge approaches with the benefit of successful cases and explains how their deployment can improve construction performance and competitiveness **Service Breakthroughs** James L. Heskett, 1990-09-17 Discover the game changing strategies of Service Breakthroughs where Harvard Business School experts unveil innovative service management techniques breakthrough leadership insights and the self reinforcing service cycle to elevate customer satisfaction retention and profitability in competitive industries What Do Citicorp UPS and Marriott have in common They are breakthrough service

providers firms that changed the rules of the game in their respective industries by consistently meeting or exceeding customer needs and expectations To find out how these companies do it service management experts James Heskett Earl Sasser and Christopher Hart put the question to the chief executive officers of fifteen of America s leading service firms attending a workshop at the Harvard Business School Breakthrough leaders they discovered think very differently about their businesses than their competitors Now in Service Breakthroughs based upon five years of exhaustive research in fourteen service industries Heskett Sasser and Hart show exactly what enables one or two companies in each industry to constantly set new standards for quality and value that force competitors to adapt or fail At the heart of breakthrough performance the authors contend is a sometimes intuitive but thorough understanding of the self reinforcing service cycle that replaces traditional management of trade offs The cycle is a paradigm derived from the research results suggesting direct links between heightened customer satisfaction increased customer retention augmented sales and profit improved quality and productivity greater service value per unit of cost improved satisfaction of service providers increased employee retention and further heightened customer satisfaction With detailed examples and dramatic case studies of Mark Twain Bancshares American Airlines Florida Power and Light Federal Express McDonald s and many other companies Heskett Sasser and Hart show how this self reinforcing cycle of behavior differentiates breakthrough leaders from their merely good competitors The authors describe how breakthrough managers develop counterintuitive even contrarian strategic service visions These companies define their service concept in terms of results achieved for customers rather than services performed They target market segments by focusing on psychographics how customers think and behave instead of demographics And instead of viewing a service delivery system as a facility where the service is produced and sold breakthrough firms see it as an opportunity to enhance the quality of the service These profound differences in thought and action have brought spectacular results For managers who wish to set the pace in their service industries Service Breakthroughs is essential reading
