## **Professional Education For Ministry A History Of Clinical Pastoral Education:**

*Professional Education for Ministry* Edward E. Thornton, 1970      *Trust the Process* Stephen D. W. King, 2007 This book presents a history of the CPE movement from precursors in educational reform to its development into the Association for Clinical Pastoral Education CPE until 1990 Readers will understand issues choices and dynamics of how CPE evolved and appreciate how CPE has lived its mantra trust the process The book also engages the reader to reflect upon his or her own understanding of theological education Built upon a foundation of educational reform CPE has provided supervised clinical experience as a means to enhance understanding skills and personal and interpersonal growth CPE moved from a simple value of care toward a value of professional competence while seeking to institutionally guarantee consistent quality education Early leaders of the unified ACPE focused upon internal development and professional excellence The next generation invested in interorganizational cooperation and reclaiming concern for public issues      *How to Get the Most Out of Clinical Pastoral Education* Gordon J. Hilsman, D.Min, 2018-05-01 This is the simple practical introduction to getting the best results from Clinical Pastoral Education CPE Covering how to report on reflect on and discuss pastoral encounters it explains how to foster better responses to patients spiritual needs in a range of clinical settings      *A History of Pastoral Care in America* E. Brooks Holifield, 2005-11-01 Here for the first time the development of pastoral care as a discipline has been documented Dr Holifield details the shift in emphasis from saving souls to supporting individuals in self realization and in the process raises thought provoking questions about the preoccupation with psychological methodology evident in modern society and clergy Every pastor wittingly or unwittingly adopts some theory of pastoral counseling whether it be derived from the seventeenth century or from the twentieth says Dr Holifield From colonial America s intellectual approach to today s therapeutic self culture he explores those theories Theological social economic and psychological threads are interwoven with fascinating conversational examples to show how Protestantism helped to form and was influenced by changing social orders Broad in scope scholarly in detail yet immensely readable this is an important book for clinical pastoral educators students professionals everyone interested in church and social history      *Clinical Pastoral Supervision and the Theology of Charles Gerkin* Thomas St. James O'Connor, 2006-01-01 In the last twenty years the number of texts written on clinical pastoral supervision has accelerated Thomas St James O Connor analyzes these texts nearly 300 of them in light of three fundamental questions about the praxis of clinical pastoral supervision 1 what is distinctive about the praxis 2 what is an appropriate theological method for the praxis and 3 what is an adequate praxis In doing so he formulates three approaches the social science the hermeneutic and the special interest Looking at the theology of Charles Gerkin a pastoral theologian and family therapist O Connor develops a conversation between Gerkin s theology and the texts The theological methods in the three approaches are critiqued and Gerkin s praxis theory praxis method is endorsed Case examples are used throughout to illustrate theory and issues discussed and to aid in the presentation of an adequate praxis Clinical Pastoral

Supervision and the Theology of Charles Gerkin provides a unique overview of the history and current state of clinical pastoral supervision and an understanding of its methodology and theological foundations More than that it builds on the practical theory of Charles Gerkin expanding it for immediate use in the practice of ministry

**Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific** Larry Van De Creek,2013-04-03 Does the scientific process belong in pastoral counseling Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No examines the widespread ambivalence among pastoral caregivers and educators over the growing inclusion of science in pastoral care and counseling methodologies Twenty three seasoned professionals in the field give candid and sometimes emotional accounts of their interest inand reservations aboutthe role scientific research plays in their profession Some authors look at the issue from a historical perspective others voice additional concerns A few make concrete proposals on how chaplaincy can become more scientific The result is a unique insight into the relationship between the secular and the religious The question of whether science belongs in pastoral care and counseling is moot pastoral care already makes extensive use of psychological testing and psychotherapeutic skillsall products of scientific thinking But as technology becomes more dominant and health care delivery reflects a more corporate perspective pastoral caregivers and educators are divided on whether the changes represent the significant opportunity to improve a ministry or the surrender of the ministry s very essence The essays collected in Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No go a step farther breaking down the issue of faith versus science into more specific questions for pastoral caregivers such as Can what you do be measured Do you have an obligation to embrace the challenge of change Is becoming more scientific a necessity for staying in touch with your health care peers How cost effective is the pastoral care you provide if it doesn t include the scientific process Could a reluctance to incorporate science into your counseling cost you your job Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No presents thoughtful and thought provoking debate that is a must read for all pastoral caregivers and educators

**Helping the Good Shepherd** Susan E. Myers-Shirk,2009-03-02 This history of Protestant pastoral counseling in America examines the role of pastoral counselors in the construction and articulation of a liberal moral sensibility Analyzing the relationship between religion and science in the twentieth century Susan E Myers Shirk locates this sensibility in the counselors intellectual engagement with the psychological sciences Informed by the principles of psychology and psychoanalysis pastoral counselors sought a middle ground between science and Christianity in advising anxious parishioners who sought their help for personal problems such as troubled children violent spouses and alcohol and drug abuse Myers Shirk finds that gender relations account in part for the great divide between the liberal and conservative moral sensibilities in pastoral counseling She demonstrates that as some pastoral counselors began to advocate women s equality conservative Christian counselors emerged denouncing more liberal pastoral counselors and secular psychologists for disregarding biblical teachings From

there the two sides diverged dramatically Helping the Good Shepherd will appeal to scholars of American religious history the history of psychology gender studies and American history For those practicing and teaching pastoral counseling it offers historical insights into the field

**The Chaplain's Presence and Medical Power** Richard Coble, 2017-12-20 Why is loss present but rarely spoken of in the hospital system How does such silence carry over to the practices of chaplains who accompany dying patients and grieving families Richard Coble critically examines his experiences as a hospital chaplain to analyze the place of spiritual care in wider trends vexing healthcare today including its persistent disparities and its related inability to reckon with human decline Simultaneously he offers routes for chaplains to be a force of change

**The Supervision of Pastoral Care** David A. Steere, 2002-08-26 This book offers basic information both for persons under supervision and for those supervising them in pastoral care drawing upon the expertise and experiences of fifteen pastoral supervisors In describing key aspects George Bennett discusses the supervisory contract and preparing for supervision Kathleen Davis introduces methods of working with clinical material Mark Jensen presents ways to work with life histories and Alexa Smith provides a summary of student responses to clinical supervision To expand various kinds of supervision Darryl Tiller addresses the use of self as instrument John Lentz considers the supervision of pastoral counseling relationships Bruce Skaggs describes group supervision and Carolyn Lindsay presents specific aspects of live supervision Three chapters address specific problems Clarence Barton and Amanda Ragland deal with transference and countertransference Nancy Fontenot examines passivity and Barbara Sheehan reviews gender issues Finally the supervisory model is applied to broader issues to the supervision of church volunteers by Grayson Tucker to supervising teachers in Christian Education programs by Louis Weeks and to a seminary field education program by editor David A Steere This book is a valuable asset for professors working supervisors and all persons entering supervision in pastoral care

The Professionalization of Pastoral Care T. Dale Johnson, 2020-07-21 When the organization and structure of the church in America was altered in the early 1900s to meet modern demands the role of the pastorate became more specialized to adapt to the burdens of the new efficient structure In 1920 Gaines Dobbins utilized the business efficiency model at Southern Baptist Theological Seminary to formulate a distinct ecclesiology Discontent with traditional methods of instruction in theological education Dobbins sought to implement theories and methodologies from modern educationalists He adopted a psychologized educational methodology and utilized the psychology of religion as an empirical measure of the soul human nature and human behavior Use of the social sciences seemed to grant Dobbins as a practitioner academic respectability within the realm of theological education Both the professionalization that resulted from Dobbins's efficiency standards and a working theory of human nature derived from psychological models were synthesized into a specialized system of pastoral care Dobbins followed the new shape of pastoral theology in America adopting Clinical Pastoral Education CPE as the model for pastoral training As a result CPE became an integral part of the curriculum at Southern Baptist Theological Seminary for over sixty years and spread to

influence many other SBC entities      Christian Theology in Practice Bonnie J. Miller-McLemore, 2012-02-02 For the past fifty years scholars in both pastoral and practical theology have attempted to recapture human religious experience and practice as essential sites for theological engagement redefining in the process what theology is how it is done and who does it In this book Bonnie J Miller McLemore shows how this trend in scholarship has led to an expanded subject matter alternative ways of knowing and richer terms for analysis in doing Christian theology Tracing more than two decades of her own search for a more inclusive discipline one that truly grapples with theology in the midst of life Christian Theology in Practice shows not only where Miller McLemore herself has traveled in the field but also how pastoral and practical theology has developed during this time Looking forward Miller McLemore calls on the academy and Christian congregations to disrupt conventional theological boundaries and to acknowledge the multiplicity of shapes and places in which the wisdom of God appears      The Psychological Anthropology of Wayne Edward Oates Samuel E. Stephens, 2020-07-24 Theological education has historically placed a strong emphasis on Scripture as the source of principle and practice for ministry However when it comes to the arena of counseling this has largely not been the case Focusing on the significant influence of Wayne Edward Oates 1917 1999 the author seeks to explore how and why the American Protestant church arrived at the place where psychological counseling has become the norm and biblical counseling is treated as novel A detailed study of Oates anthropology which served as the heart of his counseling theory and practice demonstrates that it was shaped and informed by secular concepts values and principles instead of what God has to say about who we are as people what plagues our souls and where we find our true hope and healing This subtle shift from the theological to the therapeutic has contributed to a much broader view from many in the church that counseling is more of a clinical and professional service rather than a personal or pastoral ministry of the Scriptures Through these unsettling warnings and implications the author hopes that the church will see the importance of once again engaging with the God glorifying Christ honoring and Spirit empowering ministry of counseling
