Professional Ethics and Librarians Jonathan A. Lindsey, Ann E. Prentice, 1985 **Professional Ethics in Librarianship** Fay Zipkowitz, 1996 Most librarians believe that they are part of a profession that is service oriented democratic and nonjudgmental Implicit in these principles is a core of professional ethics allowing librarians to make effective informed choices in matters affecting the library its patrons and staff Many of the ethical dilemmas facing the profession are covered here through a series of case studies The focus is on librarians relationships with patrons colleagues organizations resources and vendors Such issues as parental consent patrons rights to privacy union activities library endorsements censorship and many others are covered Each case study is followed by questions that highlight the particular ethical problem **Library Ethics** Jean Preer, 2008-10-30 The evolution of ethical standards for librarians parallels the development of librarianship as a profession Our most important professional values have been tested and debated in the course of formulating and adopting our codes of ethics This book includes historical precedents and current examples of ethical issues facing the profession It looks broadly at the many arenas in which librarians face ethical choices helping practitioners identify an ethical dilemma and providing guidance on how to respond how to separate personal belief from professional responsibility and how to make exceptions in a principled way Where appropriate references are included to the codes of ethics of other professions journalists booksellers and lawyers Information Ethics for Librarians Mark Alfino, Linda Pierce, 1997 A philosophical and practical model for approaching the ethical challenges librarians are facing is provided in this work The moral value of information is first examined prompting a rethinking of librarians understanding of professional neutrality and calling for them to broaden their role as community information specialists Organizational ethics are next covered the authors recommend specific management styles and values appropriate to libraries This is followed by a critical analysis of the culture and tradition of librarianship showing how the field has reached its current identity and how its history can provide insights for new professional values Practical recommendations for handling ethical problems in reference service collection development and Internet access are then presented **The Ethics of Librarianship** Robert W. Vaagan, 2012-10-25 No detailed description available for The Ethics of Librarianship **A Study of Professional Ethics of Librarian of Affiliated Colleges of Sant Gadge Baba Amravati University, Amravati** Dr. Pradnya Haribhau Kshirsagar, 2025-03-20 Traditional librarianship is all about sitting down in the center of book racks and supposing people to come and read If they do not come then the librarian closes library at the end of the day This is the daily routine But a contemporary librarian in the Digital Age must be comprehensive in the storage reclamation and distribution of knowledge with support of information communication technology ICT This may be through computer internet E mail CD ROM slides teaching aids telephones as well as the global system of mobile telecommunications GSM fax machines etc Archival resources could be stored on CD ROMs for easy reclamation and spreading to potential users Librarians can now
