Professionals On Workplace Stress The Essential Facts:

Professionals on Workplace Stress - The Essential Facts Alex Roney, Cary L. Cooper, 1997-10-17 Stress can be defined as existing when levels of pressure build up on an individual and impact detrimentally on effectiveness at work and on the individual's health. Recognition of stress is not a new phenomenon but the professional understanding of its impact on individuals is continually increasing and the steps which have been taken both at the legislative and also in working practices to combat and deal with the effects of stress are becoming increasingly more numerous and effective. To effectively deal with stress in the workplace organizations should look at its impact on a number of different professional levels which are independent in terms of the required skills and knowledge the responsible individuals must possess but which all link together to form a complete strategy to manage stress at work. This book seeks to draw together these various elements and provide advice and guidance to the overall tactics which should be employed to identify and limit the negative impact of stress.

Healthy Work Namir Khan, Nina Nakajima, Willem H. Vanderburg, 2004 The latest in a series focused on improving health conditions this volume addresses work environments bringing together diverse sources of literature that support preventive approaches to work design and organization. This reference provides an overview of relevant literature to engineers, managers, accountants, occupational health and safety specialists and industrial hygienists so that they and other professionals can understand what has caused our workplaces to become primary sources of physical and mental illness. By focusing on diagnostic and prescriptive approaches managers can implement designs and decisions that prevent or greatly reduce undesired and harmful effects. Other titles in the series include *Healthy Cities*, *Sustainable Production*, *Sustainable Energy*.

Occupational Health Nursing Katie Oakley, 2008-04-15 Occupational Health is the promotion and maintenance of the highest degree of physical, mental and social well-being of workers in all occupations by preventing departures from health, controlling risks and the adaptation of work to people and people to their jobs. Occupational Health Nursing has now become a major reference text on occupational health nursing courses. It is the only book on the market written entirely by occupational health nurses for nurses. This 3rd edition brings the book up to date with new legislation, guidance and developments. This book can be used for quick reference purposes or as a resource for more detailed research and projects. Each chapter stands alone and authors have been chosen for their particular expertise in the topic.

Work Stress and Coping Among Professionals Kwok-bun Chan, 2007-02-28 While aspiring to escape from the drudgery and alienation which seem to be the fate of manual workers, professionals have long realized to their distress that their professionalism and work commitment by no means reduce the stressfulness of their work. Such an awareness of the impact of work on their physical and emotional well-being has led the professionals to make efforts to maximize their person-environment fit and to enhance their coping and adaptation, knowing sometimes helplessly that society, bureaucracy and work organization continue to be a potent source of work stress. This book offers deep analyses of work stress and coping among professionals by a

multidisciplinary research team of sociologists psychologists psychiatrists social workers and human resources experts The work lives of seven groups of professionals are profiled and compared in this book doctors lawyers engineers nurses teachers police officers and life insurance agents Based on a large scale survey in depth interviews and comparative analyses this book suggests practical recommendations and policy measures for personal organizational as well as societal intervention Work stress is a social problem as such it requires a societal solution Meanwhile individual professionals cope and adapt in the way they know best which is certainly not a satisfactory response The Big Book of Special Education Resources
