Bushmeat harvest in tropical forests Varun Swamy,Miguel Pinedo-Vasquez,2014-10-07 Food security is increasingly becoming a priority for tropical countries This has led to reconsideration of the need to find systems and practices of sustainable harvest consumption and trade of bushmeat and other wildlife products This paper provides a synthesis of information found in the expanding global literature on the many dimensions and functions of game species bushmeat and other game resources Much research effort has focused on documenting and measuring the impact of bushmeat harvesting on populations of targeted game species This has resulted in an emphasis of conservation effort on the protection of game species and the criminalization of hunting bushmeat trade and consumption Despite decades of official bans on bushmeat trade and consumption some socioeconomic studies have shown that bushmeat is often the main source of protein and income for low income urban and rural families in some tropical countries Similarly the role of large and small bodied game species in the sustainable provision of seed dispersion and other ecosystem services are underlined by some ecological and conservation biology studies A great diversity of complex management systems of game species in forests and on agriculture land are reported by some ethnographic studies The encouraging results from some bushmeat studies are an incentives to conduct evidence based studies that can generate knowledge and information that can help policy makers to make informed decisions

The !Kung San Richard Borshay Lee,1979-12-12 For most of human history hunting and gathering was a universal way of life Richard Borshay Lee spent over three years conducting fieldwork among the Kung San an isolated population of 1 000 in northern Botswana When Lee began his work in 19863 the Kung San were one of the last of the world s people to live this life By 1973 when Lee last lived with the group it appeared that they Kung were a society on the threshold of a transformation that signalled the end of foraging as an independent way of life at least in Africa The Kung San Men Women and Work in a Foraging Society an ecological and historical study is Professor Lee s major statement on his research By maintaining simultaneous historical and synchronic perspectives Lee is able to extend his analysis of core features from the contemporary Kung to prehistoric societies These basic principles become the means to understanding the form of human life that has been obscured by the developments and complications of societies during the last few thousand years
