United States. Congress. Senate. Committee on Labor and Public Welfare,1960 The Collective Spirit of Aging Across
Cultures Halaevalu F.Ofahengaue Vakalahi,Gaynell M. Simpson,Nancy Giunta,2014-01-28 The collective inclusive and
intersectional framework used in this book speaks to the significance of understanding aging across diverse cultures from
multiple perspectives but still as a shared human experience The underlying message of the book is that although we are
unique and different in our aging processes we are ultimately connected through this physical mental and spiritual
experience of aging Thus regardless of whether we are service providers service recipients educators or merely fellow
human beings it is important that we approach the aging experience through a collective lens for discovering and sharing
resources as we age honoring the past while simultaneously accepting that the future is here A few select examples of key
findings from this collaborative work are as follows First despite progress in the field certain issues remain to be addressed
including the challenges of racism and sexism mistreatment the digital divide poverty and other social and economic crises in
urban and rural communities as they relate to our aging population Second the need for sustaining a sense of independence
among the aged and interdependence among supportive systems is warranted Third our elders continue to benefit from
culturally competent services community based health interventions and social services that addresses normative and
emerging challenges for them Fourth spirituality in both indigenous and contemporary perspectives remains important for
our elders development and quality of life **The Book of Discipline of The United Methodist Church 2016** United
