Programmed To Kill The Politics Of Serial Murder:

Programmed to Kill David McGowan, 2004 The specter of the marauding serial killer has become a relatively common feature on the American landscape Reactions to these modern day monsters range from revulsion to morbid fascination fascination that is either fed by or a product of the saturation coverage provided by print and broadcast media along with a dizzying array of books documentary films websites and Movies of the Week The prevalence in Western culture of images of serial killers and mass murderers has created in the public mind a consensus view of what a serial killer is Most people are aware to some degree of the classic serial killer profile But what if there is a much different profile one that has not received much media attention In *Programmed to Kill* acclaimed and always controversial author David McGowan takes a fresh look at the lives of many of America's most notorious accused murderers focusing on the largely hidden patterns that suggest that there may be more to the average serial killer story than meets the eye Think you know everything there is to know about serial killers Or is it possible that sometimes what everyone knows to be true isn't really true at all *The Skeptic's Guide to Conspiracies* Monte Cook, 2009-09-18 Did the noble order of the Knights Templar guard a secret about Jesus birth Was the moon landing faked in a Hollywood movie studio Is the government keeping the remains of an alien spacecraft in the top secret Area 51 Monte Cook takes a look at conspiracy theories ranging from the historically complex to the seriously whacked out With a disbelieving eye he traces the history of some of the world's weirdest ideas and even includes a chart showing readers how to make up conspiracy theories for themselves Scattered through the book are the paranoid notes of an anonymous reader who claims to know what's really going on You can make up your own mind as to who's telling the truth

The Physics of God and the Quantum Gravity Theory of Everything James Redford, 2011-12-19 ABSTRACT Analysis is given of the Omega Point cosmology an extensively peer reviewed proof i.e mathematical theorem published in leading physics journals by professor of physics and mathematics Frank J Tipler which demonstrates that in order for the known laws of physics to be mutually consistent the universe must diverge to infinite computational power as it collapses into a final cosmological singularity termed the Omega Point The theorem is an intrinsic component of the Feynman DeWitt Weinberg quantum gravity Standard Model Theory of Everything TOE describing and unifying all the forces in physics of which itself is also required by the known physical laws With infinite computational resources the dead can be resurrected never to die again via perfect computer emulation of the multiverse from its start at the Big Bang Miracles are also physically allowed via electroweak quantum tunneling controlled by the Omega Point cosmological singularity The Omega Point is a different aspect of the Big Bang cosmological singularity the first cause and the Omega Point has all the haecceities claimed for God in the traditional religions From this analysis conclusions are drawn regarding the social ethical economic and political implications of the Omega Point cosmology **My Cosmic Trigger** Matt Vaughn, 2024-07-11 High strangeness denotes happenings so uncanny they are deemed utterly absurd It involves the intersection of multiple paranormal phenomena

revealing an eerie undergirding of reality MY COSMIC TRIGGER is a deep dive into the subject covering its history theories and notable researchers analyzing mechanisms behind this cosmic enigma The author s personal experiences provide a penetrating understanding of the phenomenon by demonstrating how and why extramundane weirdness manifests on a personal level helping people navigate their own synchromystic initiation with a sense of clarity fostering a constructive relationship with odd occurrences not a destabilizing one and enabling readers to successfully pull their own cosmic trigger

Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond

Cult and Ritual Abuse James Randall Noblitt, Pamela Perskin Noblitt, 2014-07-15 This personal yet scholarly journey into the confusing and clandestine world of ritual abuse survivors sheds light on their catastrophic experiences and their efforts to heal afterward Revised updated and expanded this third edition of a classic study is one of the most authoritative and evenhanded volumes to tackle its hotly debated subject matter Incorporating the authors firsthand observations the book provides historical anthropological and psychological context for contemporary reports of both ritual abuse and ritual crime In addition to sharing patient vignettes and a history of cult and ritual abuse in society the authors explore fascinating topics related to these practices among them what triggers personality shifts for victims even many years after the abuse has stopped Importantly the book shows how ritual abuse affects society as a whole influencing civil and criminal law politics legislation social movements social welfare and psychological theory It provides unique insights into the scientific study forensic investigation and implementation of social services for survivors of cult and ritual abuse discusses new research and treatment strategies and establishes the foundation for a psychological diagnosis to be called Cult and Ritual Trauma Disorder

Demons in the USA Michael E. Heyes, 2024-09-24 Demons in the USA argues that the discourse on the demonic that developed in the nineteenth century continues to exert a powerful hold over the American spiritual imagination The book

begins by tracing the conservative Christian encounter with Spiritualism in the nineteenth century and the mode of thinking about the demonic which developed As Spiritualism's core principles reappeared in the New Age Christian interlocutors once more drew on this anti Spiritualist paradigm to condemn the movement This condemnation is absorbed by and amplified through the film *The Exorcist* The author considers how the success of the film disseminates the anti Spiritualist paradigm in surprising ways entangling it with entertainment science and politics such that it influences psychology the Satanic Panic of the 1980s and the contemporary QAnon movement This entanglement points to the broader argument of the work While we may wish to think of a film as entertainment and thus having no bearing on reality or demonic material as religious and thus exempt from categories like politics or science the truth is that categories are not so easily separated The author contends that the need to enforce the boundaries of such categories and the failure to do so is a hallmark of the intellectual construct of modernity and that those who believe in demons in the contemporary United States are surprisingly modern in their views The book grounds the importance of media to the twentieth and twenty first century religious experience arguing that the United States of today would not be possible without *The Exorcist* and its products *Demons in the USA* will be of particular interest to scholars dealing with religion in America those with a focus on religion and film or those involved with contemporary demonology

Big Mother Jasun Horsley, 2023-10-31 A bold examination of artificial intelligence consciousness technology and the human urge to return to the womb The thesis of *Big Mother* begins with the premise that our disembodiment as a species is being engineered and that at the same time we are engineering it through technology It proposes that the primary driving force of human civilization is the desire to create through technology a replica of the mother's body and then disappear into it Taking us into the uncanny valley where neurodiversity linguistics consciousness technology demonology Rudolf Steiner Philip K Dick Norman Bates Ted Bundy transgenderism liquid modernity identity politics the surveillance state virtual reality transhumanism Satanism medical totalitarianism and a new world religion of scientism collide *Big Mother* explores the technologically assembled and technocratically imposed architecture of illusion in which the modern human being is increasingly lost inside and points the way back to our original soul natures

Esoteric Hollywood: Jay Dyer, 2016-12-01 Like no other book before it this work delves into the deep dark and mysterious undertones hidden in Tinseltown's biggest films *Esoteric Hollywood* is a game changer in an arena of tabloid populated titles After years of scholarly research Jay Dyer has compiled his most read essays combining philosophy comparative religion symbolism and geopolitics and their connections to film Readers will watch movies with new eyes able to decipher on their own as the secret meanings of cinema are unveiled

Prisoner of Infinity Jasun Horsley, 2018-03-20 *Prisoner of Infinity* examines modern day accounts of UFOs alien abductions and psychism to uncover a century long program of psychological fragmentation collective indoctrination and covert cultural social and mythic engineering Whether it is the forces of God government aliens from outer or inner space or the incalculable effects of childhood sexual trauma on the human psyche premature contact with

these forces compels us to create crucial fictions Such semi coherent mythic narratives make partial sense out of our experience but in the process turn us into the unreliable narrators of our own lives Taking UFOS and the work of experimenter Whitley Strieber as its departure point Prisoner of Infinity explores how beliefs are created and perceptions are managed in the face of the inexplicably complex forces of our existence While keeping the question of a non human and or paranormal element open the book maps how all too human agendas such as the CIA s MK Ultra program have co opted the ancient psychological process of myth making giving rise to dissociative dumbed down Hollywood versions of reality The New Age movement UFOs alien abductions psychism psychedelic mind expansion Transhumanism the Space Program what if they are all productions devised by committee in dark rooms to serve social political and economic goals that are largely devoid of true substance or meaning Through an exacting and enlivening process of social cultural and psychological examination and excavation Prisoner of Infinity uncovers the most deeply buried treasure of all The original uncredited author of all mystery and meaning the human soul

Weird Scenes Inside The Canyon David McGowan,2014-03-19 The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times Members of bands like the Byrds the Doors Buffalo Springfield the Monkees the Beach Boys the Turtles the Eagles the Flying Burrito Brothers Frank Zappa and the Mothers of Invention Steppenwolf CSN Three Dog Night and Love along with such singer songwriters as Joni Mitchell Judy Collins James Taylor and Carole King lived together and jammed together in the bucolic community nestled in the Hollywood Hills But there was a dark side to that scene as well Many didn t make it out alive and many of those deaths remain shrouded in mystery to this day Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson along with his murderous entourage Also floating about the periphery were various political operatives up and coming politicians and intelligence personnel the same sort of people who gave birth to many of the rock stars populating the canyon And all the canyon s colorful characters rock stars hippies murderers and politicians happily coexisted alongside a covert military installation

Prosecution for Treason Mary Maxwell,2011-04-29 The Constitution defines treason as levying war against the United States by persons who hold allegiance to the US in other words all Americans This author argues that violence committed against citizens by anyone who wages weather warfare she assumes Hurricane Katrina is an example or who sets epidemics in motion by laboratory created diseases such as AIDS should be prosecuted for the crime of treason As for the violent MK Ultra techniques to which thousands of children were subjected and which Congress revealed in 1975 how is it that all the perpetrators escaped punishment They would be properly designated not as Dr Strangelove s but as traitors The law is clear on this

The Serial Killer Files Harold Schechter,2003-12-30 THE DEFINITIVE DOSSIER ON HISTORY S MOST HEINOUS Hollywood s make believe maniacs like Jason Freddy and Hannibal Lecter can t hold a candle to real life monsters

Space, Place, and Violence James A. Tyner, 2012-05-02 Direct interpersonal violence is a pervasive yet often mundane feature of our day to day lives paradoxically violence is both ordinary and extraordinary Violence in other words is often hidden in plain sight *Space Place and Violence* seeks to uncover that which is too apparent to critically question both violent geographies and the geographies of violence With a focus on direct violence this book situates violent acts within the context of broader political and structural conditions Violence it is argued is both a social and spatial practice Adopting a geographic perspective *Space Place and Violence* provides a critical reading of how violence takes place and also produces place Specifically four spatial vignettes home school streets and community are introduced designed so that students may think critically how race sex gender and class inform violent geographies and geographies of violence

Esoteric Hollywood II Jay Dyer, 2018-12-01 Like no other book before it this work delves into the deep dark and mysterious undertones hidden in Tinsel town s biggest films *Esoteric Hollywood* is a game changer in an arena of tabloid populated titles After years of scholarly research Jay Dyer has compiled his most read essays combining philosophy comparative religion symbolism and geopolitics and their connections to film Readers will watch movies with new eyes able to decipher on their own as the secret meanings of cinema are unveiled
