Programmed for Failure Herbert Wieder, 2001-07-25 Programmed for Failure is an authoritative study of the ways that politics and pieties have failed the most vulnerable and most volatile members of society the young By declaring war on drugs while avoiding a candid confrontation with the natural pressures and confusions of adolescence and tolerating public schools that do not teach basic literacy governments waste millions on what can't be legislated and program our children for failure *Books In Print 2004-2005* Ed Bowker Staff, Staff Bowker, Ed, 2004 **Everyday Life in the Modern World**

Henri Lefebvre, 2023-09-28 Philosopher sociologist and urban theorist Henri Lefebvre 1901 1991 was one of the great social theorists of the twentieth century and pioneered the theorization of everyday life and space In this fascinating book which became a manifesto for urban activism upon its first publication in the 1960s Lefebvre poses a major question what gives a society undergoing constant change the illusion of stability For Lefebvre the answer is that our everyday lives are the product of decisions from which we are alienated resulting in what he memorably describes as terror enforced passivity Modern capitalism produces and controls the space around us the buildings we work in the roads we drive on and even the parks surrounding us are artificial and controlled isolating the individual in a life of repetition Lefebvre rejects such a world of control and monotony urging instead a spontaneous utopian creativity in which human beings can engage in meaningful work and leisure Profound and prophetic for its insights into the impact of capitalism and urbanization *Everyday Life in the Modern World* remains a classic work by a towering thinker and essential reading today This Routledge Classics edition includes a new Foreword by Claire Revol and Rob Shields *World Literature Today*, 1983 **First Things**, 2008
