Doaitse Swierstra, 1996-09-11 This book constitutes the refereed proceedings of the Eighth International Symposium on Programming Languages Implementations Logics and Programs PLILP 96 held in conjunction with ALP and SAS in Aachen Germany in September 1996. The 30 revised full papers presented in the volume were selected from a total of 97 submissions; also included are one invited contribution by Lambert Meerlens and five posters and demonstrations. The papers are organized in topical sections on typing and structuring systems, program analysis, program transformation, implementation issues, concurrent and parallel programming, tools and programming environments, lambda calculus, and rewriting constraints and deductive database languages. **Programming Language Implementation and Logic**

Programming Jan Małuszyński, Martin Wirsing, 1991-08-14 This volume contains the papers which have been accepted for presentation at the Third International Symposium on Programming Language Implementation and Logic Programming PLILP 91 held in Passau Germany August 26-28 1991. The aim of the symposium was to explore new declarative concepts, methods and techniques relevant for the implementation of all kinds of programming languages, whether algorithmic or declarative ones. The intention was to gather researchers from the fields of algorithmic programming languages as well as logic, functional and object-oriented programming. This volume contains the two invited talks given at the symposium by H. Ait Kaci and D. B. MacQueen, 32 selected papers and abstracts of several system demonstrations. The proceedings of PLILP 88 and PLILP 90 are available as Lecture Notes in Computer Science Volumes 348 and 456. *Programming Language*

techniques developed in one or both of the fields which could also be of some help in the other one and to facilitate the transfer of expertise It seems important to compare notions used in both fields showing similarities between them may prevent rediscovering results already known while studying differences may contribute to the transfer of technology
