The Invention of Decolonization Todd Shepard,2006 In this account of the Algerian War s effect on French political structures and notions of national identity Todd Shepard asserts that the separation of Algeria from France was truly a revolutionary event with lasting consequences for French social and political life For more than a century Algeria had been legally and administratively part of France after the bloody war that concluded in 1962 it was other its eight million Algerian residents deprived of French citizenship while hundreds of thousands of French pieds noirs were forced to return to a country that was never home This rupture violated the universalism that had been the essence of French republican theory since the late eighteenth century Shepard contends that because the amputation of Algeria from the French body politic was accomplished illegally and without explanation its repercussions are responsible for many of the racial and religious tensions that confront France today In portraying decolonization as an essential step in the inexorable tide of history the French state absolved itself of responsibility for the revolutionary change it was effecting It thereby turned its back not only on the French of Algeria Muslims in particular but also on its own republican principles and the 1958 Constitution From that point onward debates over assimilation identity and citizenship once focused on the Algerian province colony have troubled France itself In addition to grappling with questions of race citizenship national identity state institutions and political debate Shepard also addresses debates in Jewish history gender history and queer theory

France and "Indochina" Kathryn Robson,Jennifer Yee,2005-01-01 At the intersection of literary cultural and postcolonial studies this volume looks at French perceptions of

Indochina as they are conveyed through a variety of media including cinema literature art and historical or anthropological writings The volume is long awaited as France s memory of Indochina is understudied compared to its relationship with its former colonies in West and North Africa The book has contemporary urgency as the makeup of France s immigrant population changes and grows to include Vietnamese Cambodian and Laotian populations

Algerian Independence and the British Left Mélanie Torrent,2024-11-14 Based on archives from governments parties organisations and individuals this book investigates the

relationship between the British left and Algerian liberation movements during the Algerian War of Independence 1954-1962. It explores the presence of representatives of the Mouvement national algérien (MNA) and the Front de libération nationale (FLN) in London where they actively sought support for peace, independence from France, and the global end of European domination. By surveying their interactions with individuals and groups in the anticolonial left, including prominent Labour MPs and Trotskyist groups, Asian and African associations, and students' unions, Torrent shows how and why solidarity was interpreted differently across the left and in relation to Britain's own end-of-empire conflicts. Tracing connections across Europe and beyond, this book demonstrates how the war influenced conceptions of socialism, communism, and internationalism in Britain: what being European meant and what place the Commonwealth should have in a world where armed struggle and liberation diplomacy disrupted boundaries.
