

The book cover is a vibrant illustration. A large, detailed pink rose with many petals dominates the upper left. To its right and below are several yellow flowers of different shapes, some with multiple petals and others more star-like. In the bottom left corner, there is a realistic illustration of a head of garlic with its roots. The background is filled with lush green leaves of various shapes and shades. The text is overlaid on this floral scene.

new take on how plants should be situated, grown and cultivated. Matching certain plants together and separating others as outlined in studies such as the National Sustainable Agriculture Society's report on the subject that shows each crop with at least three companionable crops and as many as four incompatible crops. Whether you are planting Tomatoes and Onions or Carrots and Corn, the proper pairing of your plants can have a major impact on your eventual harvest and the quality of your vegetables. This book shows you the avid gardener everything you need to know to effectively pair your crops in a way that ensures there are no incompatibilities and that you get the most out of every seed. You will learn the basics of crop rotation and how it has been used since the dawn of cultivation almost 12 000 years ago to maintain the integrity of soil and harvests. You will learn how companion planting is an extension of this basic format and how it works in tandem with natural conditions and plant minerals to create the best produce. You will learn about how to prepare your garden and how to set the right system in place. You will learn via a chart and a great deal of detail about each possible combination, the best possible companion plants as well as which plants are largely incompatible. You will learn about how perennials and shrubs coexist and the fundamentals of companion planting care and seasonal care of your plants. From the top tips and methods for this style of gardening to which plants bring good insects and which ones keep pests away, you will learn everything you need to know to plot out and plant your perfect garden.
