Sharkey, Jeffrey Edward Green, 2021-09-24 The Changing Terrain of Religious Freedom offers theoretical historical and legal perspectives on religious freedom while examining its meaning as an experience value and right The volume starts from the premise that the terrain of religious freedom has never been easy and smooth Across societies and throughout history defending or contesting principles of religious freedom has required compromise among multiple interests balancing values and wrangling with the law Drawing on examples from the United States and around the world and approaching the subject from the disciplines of history law sociology philosophy religious studies and political science the essays in this volume illustrate these challenges They sketch the contours of contemporary debates while showing how

the landscape of religious freedom has shifted over time They consider various stakeholders that have asserted competing claims among them individuals and groups members of minority and majority communities states and corporations including both religious organizations and businesses and believers and non believers Taken together the studies in this volume suggest that understanding religious freedom means grappling with conflicting and perhaps irreconcilable claims about whose rights should prevail over others what religion is or may be and how religion should relate to other cultural values
