government and effective government The chapters in part 4 explore autonomous centers of power outside government and within society Part 5 contains chapters from Drucker's path breaking work on the corporation as a social organization rather than merely an economic one The rise of the so called knowledge industries forms the background for part 6 The concluding part 7 is devoted entirely to Drucker's long essay The Next Society Drucker examines the emergence of new institutions and new theories arising from the information revolution and the social changes they are helping to bring about In organizing these representative writings Drucker chose to be topical rather than chronological with each excerpt presenting a basic theme of his life's work As is characteristic of his efforts A Functioning Society appeals both the general reader as well as a cross disciplinary scholarly readership Frederick the Great and the Seven Years' War, 1756-1763 Herbert J.

Lee,2018-02-12 Authenticity has begun to rival development as a key to understanding the political aspirations of the Islamic world Almost everywhere modernity has laid waste to tradition those habits and practices deemed to be timeless and true Imperialism carried European notions of progress into Muslim dominated parts of the globe and subsequently Muslims themselves espoused Western practices techniques and philosophies Regimes calling themselves liberal socialist and Arab nationalist all embraced modernity as their principal objective Most of these regimes failed to create the promised better lives their citizens desired Moreover ordinary Muslims felt despair as modernity ripped apart families exposed youngsters to the materialism and hedonism of Western entertainments heightened social expectations and undermined religious belief Even though tradition has proved itself incapable of staving off modernity the promises and premises of modern development literature have been called into question Where is the truth around which Muslims can rally Does modernity require a rejection of tradition Does the embrace of Islamic ideas necessitate turning away from modernity Robert D Lee explores these compelling questions by presenting four contemporary Muslim writers Muhammad Iqbal Sayyid Qutb Ali Shari'ati and Mohammed Arkoun all of whom have refused to bow to such a dichotomy of modernity and tradition This study examines their efforts deeply influenced by European thinking to find a truth beyond tradition and modernity an authentic understanding of Islam upon which Muslims can build a future All four thinkers believe such an authentic understanding can serve as the foundation for a new politics Lee argues however that each of these versions of authenticity suffers shortcomings and falters in its efforts to move from the particularity of culture onto a grander scale of political organization appropriate for the modern world The Publisher ,1902
