Ridgefield's golden era      Paved Roads & Public Money Richard DeLuca, 2020-09-03 Paved Roads Public Money describes the evolution of transportation systems in modern Connecticut. It is the second book in a two-volume study that begins with the bicycle craze of the 1880s and ends with the efforts of the Malloy and Lamont administrations to revitalize Connecticut transportation in the twenty-first century. The story includes aviation highways, bridges, ferries, steamboats, canals, railroads, electric trolleys, and water ports in Connecticut and along the multi-state travel corridor from New York to Boston. Drawing on a wide array of primary material, Richard DeLuca examines how land law and technology have shaped the state and its transportation systems, giving special attention to the state's two largest transportation monopolies: the New Haven Railroad and the Connecticut Department of Transportation. The book focuses on key events in the development of transportation and legislation. It is arranged chronologically and by highlighting themes from each period, shows the implications of the state's transportation history on current debates about infrastructure and funding. It features 50 illustrations and three appendices: population by geomorphic region, a list of controlled access highways, and a list of notable highway bridges.      **Ridgefield, 1900-1950** Jack Sanders, 2003.
