Invisible Language Garth L. Hallett, 2014-03-06 Invisible Language Its Incalculable Significance for Philosophy reveals that although the use of language is visible or audible the medium employed boasts neither of these attributes Garth L Hallett suggests that from Plato until now the intangibility of language has exercised a far more profound influence in philosophy than even Wittgenstein came close to demonstrating Indeed without that pervasive factor of language the history of philosophy would have been undeniably different Yet philosophy is and can legitimately aspire to be much more than a struggle between language and human comprehension of it Ultimately this book suggests that philosophy s positive possibilities so often obscured by linguistically inattentive practice reach as far as human thought can reach

The Problem of Naturalism Brian Lightbody, 2013-05-09 Philosophers often use the term naturalism in order to describe their work It is commonplace to see a metaphysical epistemological and or ethical position self described and described by others as one that is naturalized But what if anything does the term naturalized add or subtract to the position being articulated I demonstrate in The Problem of Naturalism Analytic and Continental Perspectives that the term naturalism connotes such a broad meaning that it is difficult to demarcate naturalism from philosophy itself Still many philosophers have tried to provide non trivial and non vacuous definitions of the term My book by and large argues that such attempts are unsuccessful Instead I argue that naturalism is an attitude and neither a methodology nor a substantive position I then articulate the guidelines the naturalist needs to follow as well as the virtues he or she needs to practice in order for the term naturalism to do any meaningful work Much of the book explains and then critiques the various attempts to define naturalism in the Anglo American secondary literature Some of the criticisms I raise seem to emanate from the internal logic of the naturalistic position being expressed However others have emerged from gleaning the work of such Continental thinkers as Nietzsche Husserl Heidegger and Foucault I use these thinkers in order to expose the unjustified implicit and sometimes explicit assumptions that many naturalistic philosophers presume to hold when

they attempt to render a clear distinct and robust naturalist position Squaring the Circle in Descartes' Meditations Stephen I. Wagner, 2014-08-07 Providing an innovative reading of Descartes Meditations this book resolves the classic problem of the Cartesian Circle Neuropsychology of Children in Africa Michael J. Boivin, Bruno Giordani, 2013-05-13 Increasingly global humanitarian efforts are focusing on improving the lives of children And among the developing world the African nations are particularly affected by extreme weather conditions devastating pandemics and armed conflict Neurocognitive science offers significant avenues toward bringing needed aid to the continent while creating a template for helping children worldwide The studies in Neuropsychology of Children in Africa clearly illustrate how the brain develops and adjusts in the face of adversity Contributors span assessment approaches and public health risk factors and represent established topics and emerging lines of research including biocultural constructs and genomic technologies Together these chapters argue for methodology that is culturally sensitive scientifically rigorous consistent and sustainable And although the focus is pediatric the book takes a lifespan approach to prevention and intervention modeling a universal framework for understanding neurocognitive development Included in the coverage Assessment of very young children in Africa in the context of HIV Psychosocial aspects of malnutrition among African children Assessment of neuropsychological outcomes in pediatric severe malaria Neurodisability screening using the Ten Questions questionnaire The neuropsychology of sickle cell disease in West African children Computerized Cognitive Rehabilitation Therapy for African children As a guide to current findings or a springboard for new studies Neuropsychology of Children in Africa is a necessary reference for researchers policymakers and diverse professionals in global aid organizations and across the discipline The Oxford Handbook of Descartes and Cartesianism Steven M. Nadler, Tad M. Schmaltz, Delphine Antoine-Mahut, 2019 An illustrious team of scholars offer a rich survey of the thought of Rene Descartes of the development of his ideas by those who followed in his footsteps and of the reaction against Cartesianism Epistemology method metaphysics physics mathematics moral philosophy political thought medical thought and aesthetics are all covered **Western Philosophy** John G. Cottingham, 2021-07-06 The new edition of this celebrated anthology surveys the Western philosophical tradition from its origins in ancient Greece to the work of today's leading philosophers Western Philosophy An Anthology provides an authoritative guided tour through the great tradition of Western philosophical thought The seminal writings of the great philosophers along with more recent readings of contemporary interest are explored in 144 substantial and carefully chosen extracts each preceded by a lucid introduction guiding readers through the history of a diverse range of key arguments and explaining how important theories fit into the unfolding story of Western philosophical inquiry Broad in scope the anthology covers all the main branches of philosophy theory of knowledge and metaphysics logic and language philosophy of mind the self and freedom religion and science moral philosophy political theory aesthetics and the meaning of life all in self contained parts which can be worked on by students and instructors independently The third edition of the Anthology contains newly incorporated classic texts from thinkers such

as Aquinas Machiavelli Descartes William James and Wittgenstein Each of the 144 individual extracts is now followed by sample questions focusing on the key philosophical problems raised by the excerpt and accompanied by detailed further reading suggestions that include up to date links to online resources Also new to this edition is an introductory essay written by John Cottingham which offers advice to students on how to read and write about a philosophical text Part of the Blackwell Philosophy Anthologies series Western Philosophy An Anthology Third Edition remains an indispensable collection of classic source materials and expert insights for both beginning and advanced university students in a wide range of philosophy courses

The Visible World Thijs Weststeijn, 2008 How did painters and their public speak about art in Rembrandt's age This book about the writings of the painter poet Samuel van Hoogstraten one of Rembrandt's pupils examines a wide variety of themes from painting practice and theory from the Dutch Golden Age It addresses the contested issue of Dutch realism and its hidden symbolism as well as Rembrandt's concern with representing emotions in order to involve the spectator Diverse aspects of imitation and illusion come to the fore such as the theory behind sketchy or rough brushwork and the active role played by the viewer's imagination Taking as its starting point discussions in Rembrandt's studio this unique study provides an ambitious overview of Dutch artists' ideas on painting

An Introduction to Kant's Moral Philosophy

Jennifer K. Uleman, 2010-01-21 Immanuel Kant's moral philosophy is one of the most distinctive achievements of the European Enlightenment At its heart lies what Kant called the strange thing the free rational human will This introduction explores the basis of Kant's anti-naturalist secular humanist vision of the human good Moving from a sketch of the Kantian will with all its component parts and attributes to Kant's canonical arguments for his categorical imperative this introduction shows why Kant thought his moral law the best summary expression of both his own philosophical work on morality and his readers' deepest shared convictions about the good Kant's central tenets key arguments and core values are presented in an accessible and engaging way making this book ideal for anyone eager to explore the fundamentals of Kant's moral philosophy

Cartesian Poetics Andrea Gadberry, 2020-11-10 What is thinking What does it feel like What is it good for Andrea Gadberry looks for answers to these questions in the philosophy of René Descartes and finds them in the philosopher's implicit poetics Gadberry argues that Descartes's thought was crucially enabled by poetry and shows how markers of poetic genres from love lyric and elegy to the puzzling forms of the riddle and the anagram betray an impassioned negotiation with the difficulties of thought and its limits Where others have seen Cartesian philosophy as a triumph of reason Gadberry reveals that the philosopher accused of having slashed poetry's throat instead enlisted poetic form to contain thought's frustrations Gadberry's approach to seventeenth-century writings poses questions urgent for the twenty-first Bringing literature and philosophy into rich dialogue Gadberry centers close reading as a method uniquely equipped to manage skepticism tolerate critical ambivalence and detect feeling in philosophy Helping us read classic moments of philosophical argumentation in a new light this elegant study also expands outward to redefine thinking in light of its poetic formations
